Interpreting Our Heritage Freeman Tilden, 2007 Presents a guide to developing interpretive programs for national parks and historic sites.

Interpreting Our Heritage Freeman Tilden, 2009-07-17 Every year millions of Americans visit national parks and monuments, state and municipal parks, battlefields, historic houses, and museums. By means of guided walks and talks, tours, exhibits, and signs, visitors experience these areas through a very special kind of communication technique known as "interpretation." For fifty years, Freeman Tilden's *Interpreting Our Heritage* has been an indispensable sourcebook for those who are responsible for developing and delivering interpretive programs. This expanded and revised anniversary edition includes not only Tilden's classic work but also an entirely new selection of accompanying photographs as well as five additional essays by Tilden on the art and craft of interpretation. Whether the challenge is to make a prehistoric site come to life; to explain the geological basis behind a particular rock formation; to touch the hearts and minds of visitors to battlefields, historic homes, and sites; or to teach a child about the wonders of the natural world, Tilden's book, with its explanation of the famed "six principles" of interpretation, provides a guiding hand.

Interpreting Our Heritage (Volume 2 of 2) (EasyRead Super Large 24pt Edition) Freeman Tilden, 1984

Freeman Tilden Freeman Tilden, *Interpreting Our Heritage*, 1957 Every year millions of Americans visit national parks and monuments, state and municipal parks, battlefield areas, historic houses, and museums. By means of guided tours, exhibits, and signs, visitors to these areas receive a very special kind of education through their interpretation of informative materials. For over thirty-five years, *Interpreting Our Heritage* has been a source book for those who are responsible for and who respond to such interpretive materials. Whether the problem is to make a prehistoric site come to life or to explain the

geological theory behind a particular rock formation, Freeman Tilden provides helpful principles to follow. For anyone interested in our natural and man-made heritage, this book offers guidance for exploring educational and recreational resources.

Interpreting Our Heritage (EasyRead Super Large 20pt Edition) Freeman Tilden, 2007

Interpreting Heritage Steve Slack, 2020-11-29 *Interpreting Heritage* is a practical book about the planning and delivery of interpretation that will give anyone working in the heritage sector the confidence and tools they need to undertake interpretation. Steve Slack suggests a broad formula for how interpretation can be planned and executed and describes some of the most popular – and potentially challenging, or provocative – forms of interpretation. Slack also provides practical guidance about how to deliver different forms of interpretation, while avoiding potential pitfalls. Exploring some of the ethical questions that arise when presenting information to the public and offering a grounding in some of the theory that underpins interpretive work, the book will be suitable for those who are completely new to interpretation. Those who already have some experience will benefit from tools, advice and ideas to help build on their existing practice. Drawing upon the author's professional experiences of working within, and for, the heritage sector, *Interpreting Heritage* provides advice and suggestions that will be essential for practitioners working in museums, art galleries, libraries, archives, outdoor sites, science centres, castles, stately homes and other heritage venues around the world. It will also be of interest to students of museum and heritage studies who want to know more about how heritage interpretation works in practice.

Interpretation: Education, Programs, and Exhibits Cinnamon Catlin-Legutko, Stacy Klingler, 2011-11-16 Programs, tours and exhibits are the meat-and-potatoes of what most museums do to meet their missions to educate the public. Interpretation helps make small museums compelling so that the public understands that they are more than a repository of dusty objects. This book considers researching and designing exhibits and best practices for sharing the stories with your audiences. It explores how to orient your organization to be effective interpreters of what you collect, including how to tell engaging stories and how to address difficult issues you may have ignored in the past, like slavery, prejudice and privilege. For the non-historian, it also offers a step-by-step primer on good historical research.

Interpretation by Design Paul Caputo, Shea Lewis, Lisa Brochu, 2008-10-15 Interpreters use exhibits, brochures, signs, websites, site publications, and other visual media to tell their stories. Written for interpreters who have little or no training in graphic design but find themselves responsible for creating or overseeing the production of nonpersonal media, *Interpretation by Design* focuses on using basic principles of both graphic design and interpretation in nonpersonal media. This book addresses how to make decisions about type, color, and composition, as well as why an interpretive approach may be more effective for communicating with your audience.

A New Role for Museum Educators Elizabeth Wood, 2023-06-26 *A New Role for Museum Educators* shows how learning

happens in communities, how volunteers and professionals approach their work, the underlying principles and philosophies that guide the work of museum education, and how these practices are always evolving to remain relevant. Museum education in its most expansive definition is about communicating messages, creating learning experiences, and, at its most aspirational, promoting human development for people of all backgrounds, abilities, and circumstances. This edited volume revisits the legacy of museum education practices, reflecting on the changing context of community and the role of cultural institutions, and provides insights into new directions that museums can take with a visitor-centered mindset. It provides foundational concepts around educational philosophies that guide practice, applied methods and approaches for implementation, and the ethos of an educational institution intended to support community learning and engagement that are essential to provide for the wide-ranging needs of all audiences. International perspectives from a variety of museums are considered, including art museums, children's museums, history museums and historic sites, science museums, botanical gardens, zoos, and aquariums. Chapters include thought-provoking reflections on contemporary practices, concrete examples from across the globe, and useful tools for anyone working with public audiences. Grounded in practice and informed by research, this volume will be a go-to resource for arts and cultural organization practitioners, particularly those working in Museum Education. It will also be essential reading for students of Museum Studies, Education, and related fields

Reimagining Historic House Museums Kenneth C. Turino, Max A. van Balgooy, 2019-09-13 Drawing from innovative organizations across the United States, *Reimagining Historic House Museums* is an indispensable source of field-tested tools and techniques drawn from such wide-ranging sources as non-profit management, business strategy, and software development. It also profiles historic sites that are using new models to engage with their communities to become more relevant, are adopting creative forms of interpretation and programming, and earning income to become more financially sustainable. The book is a combination of a museum conference, a hands-on workshop, and toolbox. It contains five main parts: Fundamentals and Essentials, Audiences, Different Approaches to Familiar Topics, Methods, Imagining New Kinds of House Museums. This authoritative guide from the American Association for State and Local History (AASLH) will help house museum boards, directors, and staff seeking a path forward in rapidly changing times. Graduate programs in public history, museum studies, curatorial studies, and historic preservation will discover models and approaches that will provoke lively discussions about the issues facing the field.

The Small Museum Toolkit Cinnamon Catlin-Legutko, Stacy Klingler, 2012 As a small museum staff person, you are responsible for a lot, including areas outside of your expertise or training. You need a quick reference that makes the process of becoming a sustainable, valued institution less overwhelming. *The Small Museum Toolkit* is a collection of six books that serves as a launching point for small museum staff to pursue best practices and meet museum standards. These brief volumes address governance, financial management, human resources, audience relations, interpretation, and stewardship

for small museums and historic sites. --Amazon.

Keeping Time William J. Murtagh,1997 William Murtagh, the first Keeper of the National Register of Historic Places, presents an effective portrait of the preservation movement by looking into the values underlying the efforts to safeguard America's architectural heritage, including the development of legislation and court action.
