Social-Emotional Learning Using Makerspaces and Passion Projects Julie Darling, 2022-01-20 Social-Emotional Learning Using Makerspaces and Passion Projects is chock-full of meaningful projects that educators can use to teach social-emotional skills in grades 3-6. The projects show students how to create a digital calming room, prototype an inclusive playground, and make recycled cards with paper circuits to spread kindness. They also teach young makers how to focus on self-regulation and self-care, engage in community outreach by helping struggling families, and tell their own stories using podcasting and green screening. In addition, the book provides teachers with helpful strategies for scaffolding passion projects, funding a makerspace, and tips for building community and celebrating diversity. With the engaging ideas in this book, educators will be able to help their students build direct connections to social awareness, relationship skills, responsible decision-making, self-management, and self-awareness (CASEL's SEL Framework).

What Do You Do with an Idea? Kobi Yamada, This is the story of one brilliant idea and the child who helps to bring it into the world. As the child's confidence grows, so does the idea itself. And then, one day, something amazing happens. This is a story for anyone, at any age, who's ever had an idea that seemed a little too big, too odd, too difficult. It's a story to inspire you to welcome that idea, to give it some space to grow, and to see what happens next. Because your idea isn't going anywhere. In fact, it's just getting started.

The Coaching Calendar: daily inspiration from the 'Stress-less' Coach Jeff Hutchens, 2013-07-21 The Coaching Calendar is a thought for each day based on Jeff's reflection on a variety of quotes from the coaching world. With around five minutes a day you can literally change your world around as you self-coach yourself to a more 'stress-less' life. All you need to bring is your journal, an open mind, and a commitment to transform your life for the better. Do you want a better life for yourself? Are you looking for a successful and fulfilled existence? Are you looking to shape the life of your dreams? Then invest in yourself each day with Jeff's promptings, and see the difference you can make to your life in just five minutes a day. Are you ready for the challenge?

Teaching with Children's Literature Margaret Vaughn, Dixie D. Massey, 2021-09-28 Perhaps no factor has a greater influence on children's literacy learning than exposure to engaging, authentic, culturally relevant texts. This concise practitioner resource and course text helps K-8 teachers make informed choices about using children's literature in their

classrooms, from selecting high-quality texts to planning instruction and promoting independent reading. The authors present relevant theories (such as reader response and culturally responsive pedagogy) and show how to apply them in practice. Key topics include teaching narrative and expository texts, tapping into students' individual interests, and conducting text-based writing activities and discussions. Every chapter features case examples, reflection questions, and learning activities for teachers; appendices list exemplary children's literature.

Empowering Young Readers Dina Moore, Cheryl C. Durwin, 2022-08-09 Empowering Young Readers: Dialogic Reading with Integrated Vocabulary Enrichment is designed to familiarize adults with a fun and engaging approach to reading with children that promotes their reading comprehension and vocabulary development. This book outlines an evidence-based approach called Dialogic Reading with Integrated Vocabulary Enrichment, or DRIVE, that adults can use while reading together with preschool children and children in the early elementary grades. Beginning with an overview of the importance of shared reading and the key skills necessary for children to become successful readers, Empowering Young Readers then transitions to describing the easy-to-use approach for creating meaningful dialogues while reading stories, beginning with concrete strategies used in DRIVE that are easily remembered by the acronym, EMPOWERED. Also provided are recommendations on ways to encourage vocabulary development while using the DRIVE approach, suggestions for choosing appropriate books to implement the approach, additional tips for an optimal reading experience, and a summary chapter that includes valuable resources.

Integrating Social and Emotional Learning with Content Katherine Kapustka, Sarah Bright, 2022-03-14 Integrating Social and Emotional Learning with Content builds a framework for creatively and effectively using picture books to integrate social and emotional learning (SEL) with teaching across content areas. Thoughtful book choices in mixed-ability early elementary classrooms have the power to not only support gifted students as they develop academically, but also to provide an opportunity to address their unique social and emotional needs, such as asynchronous development and an early awareness of complex and challenging issues in their lives and the world at large. Picture books are an invaluable tool for this work because the characters, topics, and settings increasingly represent and celebrate the lived experiences of diverse student populations, supporting culturally responsive teaching. Packed with lesson plans, book lists, and more, this book is perfect for teachers in gifted and mixed-ability classrooms as well as homeschooling parents looking to help their children make meaningful connections between their culture, languages, and lived experiences and the academic content and SEL skills they are being taught in the classroom.

The Entrepreneurial Scholar Ilana M. Horwitz, 2025-03-11 An invaluable guide for scholars stifled by the traditional academic route In the increasingly competitive world of academia, simply mastering your discipline is no longer enough to guarantee career success or personal fulfillment. The Entrepreneurial Scholar challenges scholars at all stages—from

doctoral students to tenured professors—to break free from conventional academic pathways by adopting an entrepreneurial mindset. What opportunities can you create based on who you are, what you know, and who you know? Drawing on her experiences in higher education, start-ups, and management consulting, as well as interviews with a range of academics and entrepreneurs, Ilana Horwitz provides a road map for those stifled by traditional academic norms and expectations. This book calls on scholars to create ideas—not just consume them. It offers strategies to thrive in academia with limited resources and in the face of uncertainty. Embracing an entrepreneurial mindset entails viewing yourself as a knowledge producer, enhancing collaboration, creatively identifying resources, and effectively sharing your ideas. Horwitz empowers all scholars—particularly women and first-generation, low-income, and BIPOC individuals—to see themselves as proactive agents in their educational and career trajectories, despite structural constraints, unclear expectations, or unresponsive advisors. With actionable advice, real-world applications, and inspiring success stories, this guide is vital for anyone aspiring to excel within and beyond the ivory tower.
