All Our Wrong Todays Elan Mastai, 2018-02-20 “Entertainingly mixes thrills and humor.”—Entertainment Weekly “[An] amazing debut novel....Dazzling and complex....Fearlessly funny storytelling.”—The Washington Post “Instantly engaging....A timeless, if mind-bending, story about the journeys we take, populated by friends, family, lovers, and others, that show us who we might be, could be—and maybe never should be—that eventually leads us to who we are.”—USA Today Elan Mastai's acclaimed debut novel is a story of friendship and family, of unexpected journeys and alternate paths, and of love in its multitude of forms. It's 2016, and in Tom Barren's world, technology has solved all of humanity's problems—there's no war, no poverty, no under-ripe avocados. Unfortunately, Tom isn't happy. He's lost the girl of his dreams. And what do you do when you're heartbroken and have a time machine? Something stupid. Finding himself stranded in a terrible alternate reality—which we immediately recognize as our 2016—Tom is desperate to fix his mistake and go home. Right up until the moment he discovers wonderfully unexpected versions of his family, his career, and the woman who may just be the love of his life. Now Tom faces an impossible choice. Go back to his perfect but loveless life. Or stay in our messy reality with a soulmate by his side. His search for the answer takes him across continents and timelines in a quest to figure out, finally, who he really is and what his future—our future—is supposed to be. Filled with humor and heart and packed with insight, intelligence, and mind-bending invention, *All Our Wrong Todays* is a powerful and moving story of life, loss, and love.

All Our Wrong Todays Elan Mastai, 2017-02 You know the future that people in the fifties imagined we'd have? Flying cars, food pills and moon bases? Well, it happened. And it's just as great as we hoped it would be. Except, in this world, a series of heartbreaks leaves Tom alone. So he hijacks his father's time machine, and goes back to where it all began - the moment when the world as we know it, and the world as Tom lives it, parted ways, due to a ground-breaking experiment. Only, thanks to Tom's accidental intrusion, the experiment fails and he returns 'home' to find his world erased and replaced with our own 2016 - by comparison, a chaotic mess. In our world, however, Tom discovers vastly improved versions of his family, his career, and - best of all - his soulmate, Penny. So. Should he fix the flow of history, bringing back into existence his old utopian reality, or to try to forge a new life in our messy one?

This is Today-- Tim Luckhurst,2001 It is what millions of people in Britain wake up to every morning: the radio programme that starts their day, and sends them off to the office or to take the children to school infuriated, amused, exasperated, enlightened - but above all informed. Though you might frown at the blood sport of John Humphreys interrogating a hapless cabinet minister, or wince at the homespun philosophising of 'Thought for the Day', Today could no more be dispensed with than the first cup of coffee. It is listened to in Downing Street, in far-flung British embassies, and by foreign ambassadors to the UK seeking to gauge the national mood. So how have these three hours of radio, from six till nine, come to assume such a central part of British political, cultural - and indeed everyday - life? Now, Tim Luckhurst, himself once a producer of the programme, has written the most authoritative anatomy of the phenomenon that is Today. He reveals how what we nowadays value for its hard news exposes and political interrogations began life as an undistinguished miscellany of light news under the avuncular Jack DeManio. He traces Today's move to the political centre-stage back to the Thatcherite eighties, when rad
