**English Language Education Policy in Asia** Robert Kirkpatrick, 2015-11-27 This volume offers comprehensive 'state-of-the-art' overviews of educational policies concerning the teaching of English in a large number of Asian countries. Each contribution is written by a leading expert and gives a clear assessment of current policies and future trends. Starting with a description of the English education policies in the respective countries, the contributors then delve into the 'nuts and bolts' of the English education policies and how they play out in practice in the education system, in schools, in the curriculum, and in teaching. Topics covered include the balance between the acquisition of English and the national language, political, cultural, economic and technical factors that strengthen or weaken the learning of English.

Key Issues in English for Specific Purposes in Higher Education Yasemin Kırkgöz, Kenan Dikilitaş, 2018-01-08 This volume offers research-based studies on English for Specific Purposes in higher education from across the world. By drawing on international studies, the book brings together diverse ESP practices and aspects of relevant issues in the development of ESP programs, teachers and learners in a coherent fashion. There is a growing need for undergraduate students to develop their proficiency of ESP skills and knowledge in the increasingly globalized world. Knowledge of ESP is an important factor in subject matter learning by students, and also closely related to the performance of university graduates in the relevant sectors. Careful planning and efficient implementation are essential to ensure the quality of the language learning process. For a variety of reasons, it proves difficult to maintain ESP instruction in higher education. These reasons include the incompetence of teachers, lack of materials for that specific context, as well as lack of opportunities for ESP teachers to develop their skills. The chapters in this book, taken from a wide variety of countries, shed light on the diversity of current practices and issues surrounding ESP.

**Language Planning in the Asia Pacific** Robert Kaplan,Richard Baldauf,2013-12-16 This volume covers the language situation in Hong Kong, Timor-Leste and Sri Lanka explaining the linguistic diversity, the historical and political contexts and the current language situation, including language-in-education planning, the role of the media, the role of religion and the roles of non-indigenous languages. Two of the authors are indigenous to the situations described while the other has undertaken extensive field work and consulting there. The three monographs contained in this volume draw together the literature on each of the polities to present an overview of the research available about each of them, while providing new research-based information. The purpose of the volume is to provide an up-to-date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise. This book was published as special issues of Current Issues in Language Planning.
