The Nature of Diamonds George E. Harlow,American Museum of Natural History,1998 The paragon of physical perfection and a sparkling example of Earth's forces at work, the diamond has fascinated all realms of society, from Russian tsars and Hollywood stars to scientists and brides-to-be. The Nature of Diamonds is an authoritative and richly illustrated look at nature's most coveted gem. Leading geologists, gemologists, physicists, and cultural observers cover every facet of the stone, from its formation in the depths of the Earth and its explosive ascent to the surface, to its economic, regal, social,

and technological roles. The book takes the reader to cutting-edge research on the frontiers of diamond exploration and exploitation, from Arctic wastes to laboratories that create industrial diamonds for cutting tools that slice through rock. Charting the history of mining from its origins in India and Brazil, the book follows the diamond rush in South Africa to today's high-tech enterprises. It provides a glimpse into the economics of the diamond trade, and an overview of diamond cutting, from the rough uncut stones in early Indian and Roman jewelry to the multifaceted stones we see today. The cultural history of the diamond as both a revered and a social symbol is explored, from its early history as the exclusive property of royalty to today's brilliant-laden jewelry as an emblem of wealth and status. The engaging text is complemented by more than 200 lavish illustrations which span fine art, earth science, and cultural studies and capture the brilliance and beauty of this extraordinary gem.

Take the Long Way Home Rochelle Alers, 2023-10-24 From a cloistered 1950s Mississippi town founded by freed slaves to the striking diversity of Paris and Rome in the 1960s and 70s, through Wall Street's glittering Roaring 80s to the present day, this sweeping, unforgettably moving novel from the national bestselling author chronicles one southern Black girl's remarkable journey through some of history's most turbulent decades—and the four men who challenge her to fight for happiness. Freedom fighter, brilliant businessperson, devoted wife, master of languages, and ultimately, savior of a European dynasty. Claudia Patterson would become all of these—spurred on by the fiercely powerful loves and losses along the way . . . Denny Clark. An abused thirteen-year-old white boy whose life twelve-year-old Claudia saves—complicating her own life for years to come. Robert Moore. A young Black lawyer who becomes Claudia's beloved husband and partner on the explosive front lines of the Civil Rights Movement. Amid the violence of the Ku Klux Klan, Claudia has a shocking personal encounter—with unimaginable consequences. Ashley Booth. A Wall Street executive who brings the glamour of New York alive for the now-widowed Claudia, introducing her to an elite circle of Black peers. But their long yet uncommitted romance leads Claudia to move on—to an overseas assignment at an Italian bank. Giancarlo Pasquale Fortenza. An Italian automobile industrialist, once enamored of a young Claudia—handsome, worldly, and twelve years her senior. A man with whom Claudia reconnects, bringing her life full circle in the boldest, bravest, and most unexpected ways . . . Rich with history and timeless emotion, here is an epic tale of rising through poverty, racism, and heartbreak—and the awesome role of our most significant relationships throughout our lives.

A World of Earrings Anne van Cutsem, 2001 This second volume of a multi-volume series on the Gbysels collection -- probably the most comprehensive and beautiful collection of ethnic jewelry in the world -- presents nearly 800 extraordinary objects, most of which have never been shown to the public before, coming from Africa, Asia and America. Since time immemorial, earrings have been a means of seduction for women. Craftsmen the world over have set their imaginations to work, using every available material. Firstly they used flowers and grass, feathers and horns, wood, shells, and ivory. Mines

and alluvional deposits offered stones and metals. Bold travellers and adventurous sailors set off in search of exotic goods. Their symbolism is also rich and complex: for the Kikuyu tribe in Kenya, a person's prestige is measured by the number of ear ornaments, as long as their lobes can stand without tearing. Statues of Buddha show him with long ears. In the archipelagos of Indonesia, the suitor's family offers earrings to seal an alliance. Leather earrings with pearls are a sign of a married woman's status for Masai. In the Philippines and among the Naga headhunters, the men's hunting exploits and prowess as warriors are embodied in the jewellery they wear on their ears.
