Coach: The Greatest Teachers in Sports and Their Lessons for Us All Justin Spizman, 2022-02-08 Every great sports coach is a life coach. This book identifies 168 outstanding coaches who have much to teach us about optimizing our performance, our character, and our lives. Coaches build winning teams and enable each athlete they mentor, guide, cajole, and nurture to achieve top performance. More than this, every great sports coach is first and last a life coach. Sportswriter Justin Spizman identifies and profiles 168 of the greatest coaches and managers of all time. They have much to teach us about optimizing our performance, our character, and our lives. Coach: The Greatest Teachers in Sports and Their Lessons for Us All profiles coaches in every significant sport, from football, basketball, baseball, and hockey to gymnastics, skating, rowing, rugby, soccer, and more. From field to court, diamond, rink, and pitch, the big leagues to the Olympics, college, and high school, Coach delivers the most teachable moments and methods—for play, for competition, and for life. Rich in quotations, each profile ends with lessons for top performance on and off the field, in and beyond the arena. Justin Spizman tracks all the relevant stats—for every sport keeps score—but he seeks first and last to disclose the mind, the heart, and the force of character that drive each of the indispensable men and women behind the world's most envied and admired athletes. His profiles range from the likes of Cardinals manager Tony La Russa (already an MLB legend), to Aimee Boorman and Cecile Canquetau-Landi (who both coached gymnastics phenom Simone Biles), Bill Belichick (the take-no-prisoners field general of the New England Patriots), Pat Summitt (who racked up 1,098 wins as coach of the University of Tennessee Lady Vols basketball team from 1974 to 2012), Marián Vajda (the coach behind tennis titan Novak Djokovic), and David Leadbetter (golf guru to champions Kathy Baker, Nick Faldo, and Michelle Wie).

THE PROMISED LAND OF ISRAEL Solomon Pournia, 2023-06-12 What would you say if the Holy Quran turned out to contain components consistent with Zionism? What if the Quran in its very philological content blesses and encourages the Jews to live in the land of Israel? What if billions of Muslims were to be made aware of the clearly pro-Zionist verses in the Quran and were to alter their worldview to welcome the Jews in their ancestral homeland? One of them is Sura Al-Ma'ida 5:21, which has a striking significance as a powerful command from Allah, as interpreted by the renowned Muslim exegetes, including Al-Tabari. On the other hand, the examining of the status of al-Aqsa Mosque being the third-holiest site in the Muslim world, as well as the status of the city of Jerusalem from Muslims' and Jews' viewpoint, would reveal fully new

perspectives. Ever since 1937, there have been multiple attempts to resolve the Arab-Jewish conflict to no avail. The hidden religious aspect of the conflict has been generally neglected by the parties. Accordingly, the Muslim world is often subjected to provocation by zealous clerics and politicians who implement anti-Jewish propaganda, including the misinterpretation of the Quranic verses. This book will tackle on the very sensitive topics alluded above and should serve as an eye-opener for Muslim politicians, traditional clerics, Muslims in general and the interested Westerners.. The welldocumented accuracy and authenticity of the quoted facts render them beyond malicious interpretation.

The History of Loot and Stolen Art Ivan Lindsay, 2014-06-02 The author of this enthralling book aims to present a well-illustrated and documented alternative history of the Western World through graphic accounts of looting and art theft from the time of Sargon, ruler of Syria in 721 BC, to the present day. Almost all the principal players included appear on the stage of World history and many of them are known as conquerors, confiscators (the old-fashioned word for looters) and ruthless administrators of the regions they created as a result of their conquests. Featured here are emperors, kings, queens, popes, adventurers, explorers and those whose energies and expertise supported the greed and acquisitive ambitions of their masters. The different motivation of the greatest looters in history is a recurrent theme which is examined throughout.

Republics Ancient and Modern, Volume I Paul A. Rahe, 2017-11-01 An assessment of the ancient Greek city and its subsequent influence. A masterwork of political theory and comparative politics for the classroom. "In a series of sketches touching on everything from the lust for honor to the suspicion of commerce and philosophy, from the role of homoerotic bonds in maintaining military formations to the distrust of technological innovation, Rahe brilliantly reminds us how utterly committed the Greeks were to a politics in which the distribution of honors, education and culture in all their forms, and economic activity were all designed to preserve civic solidarity." — Jack N. Rakove, *American Historical Review* "[An] extraordinary book. . . . It is a great achievement and will stay as a landmark." — Patrick Leigh Fermor, *The Spectator* (London) "A work of magisterial erudition." — *Journal of American History*

Xenophon's Cyrus the Great Xenophon,2007-04-03 Twenty-five hundred years ago Cyrus, a great Persian leader of wisdom and virtue, created the Persian Empire, conquered Babylon, freed forty thousand Jews from captivity, wrote mankind's first human rights charter, and ruled over those he had defeated with respect and benevolence. The Iranians came to regard Cyrus as The Father, the Babylonians as The Liberator, and the Jews as The Anointed of the Lord. The Greeks called him The Law Giver, and a century after Cyrus's death, an admiring Xenophon of Athens wrote an epic account of Cyrus's many leadership principles at war and at peace. By freshening the voice and style that Xenophon ascribed to Cyrus, [the author] has fashioned a more intimate Cyrus. A new generation of readers, including executives, managers, and military officers, can now learn from Cyrus's leaderships and wisdom in Xenophon's narrative.--Back cover of book.
