Overseas Students and Net Migration Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee,2012-09-06 This report calls on the Government to record overseas students under a classification that does not count against the overall limit on net migration in order to allow the UK to continue to expand its share of the overseas student market. The Committee notes the Government's desire to reduce net migration. However, there is a clear conflict between this policy and the desire to attract more overseas students to the UK. Moreover, the way in which the policy has been implemented and measured is clearly having a detrimental impact. At a time of such economic difficulty, it is vital that the Department for Business, Innovation and Skills demonstrates it has an active strategy to support the expansion of this important and lucrative market. The Committee argues that, for domestic policy purposes, overseas students should be recorded under a separate classification and not be counted against the overall limit on net migration, along similar lines to the United States. The Committee supports the Government's policy to remove bogus students and colleges from our Higher

Education system. However, the way in which this policy is communicated must be handled carefully to ensure it does not give the impression that the UK no longer welcomes genuine students

Immigration and Refugee Law in Australia Mary Crock, 1998 This text provides a comprehensive account of the laws and policies governing immigration and refugee law in Australia. Core to the work is its thorough analysis of judge and tribunal-made laws that supplement and contextualise the laws made by parliament, and implemented by the immigration bureaucracy. Immigration and Refugee Law in Australia highlights fundamental issues raised by immigration control in this country, and the relationship between immigration and Australia's perceived social and economic needs. These issues are: the differential treatment of the non-citizen or alien as 'other' in the Australian polity, and the complex role played by the judiciary in balancing the national interests with the human rights of the individuals affected by our laws. This goes to the very heart of how we define the 'Australian nation'.

The Sephardim of Sydney Naomi Gale, 2005 Their experiences are viewed through the prism of their relationship to

both the Ashkenazim and the larger Anglo-Australian society. Their inability to acculturate and assimilate into the Ashkenazi and Australian groups contributes profoundly to their self-image and to ethnic marginalization.--Jacket.

Vietnam's Modern Day Boat People Shira Sebban, 2023-11-14 In 2016, a newspaper published an article about four children due to be sent to an orphanage after their parents were punished for attempting to flee Vietnam. Among 46 asylum seekers trying to reach Australia by boat, they were intercepted by the Australian navy and returned to Vietnam, where intense retribution awaited. This newspaper article sparked a unifying response in people across the globe. This work tells the story of volunteer advocates who banded together to help a group of Vietnamese refugees on their journey to freedom. Highlighting the courage of ordinary people--and with tales of human rights, communal living, reuniting families and their eventual resettlement in Canada--this book paints a vivid picture of Vietnamese families' struggle for liberty in the 21st century.
