Capricorn Ascendant Secrets Saket Shah, 2020-01-05 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

*Punja Raja's Sambhu Hora Prakasa* Puñjarāja (Ācārya.), 1994 Verse treatise, with English translation and notes, on Hindu astrology.

**Hinduism** John Howley, 2001 Description: This book is an easy to understand definition of Hinduism written for the beginner. A section of this book is on this web site. Besides the basics of Hinduism, there are also sections on Vedic astrology, gemology and Vastu Sastra. Many of the important Hindu gods are described and there are some beautiful line drawings of many of the gods. Such important questions are answered such as: What is the meaning of OM and who are Krishna, Vishnu, Hanuman and Brahma? Some subjects described are yoga, temple worship, Indian festivals, karma, temple design, Buddhism, important temples, Vedic marriages, Siva-lingas, cows, important holy places, and how to act properly in a temple. At the end of the book is a glossary where many of the words used in Hinduism are defined. The astrological and gemology section are written in an easy to understand way, so it will be very useful to the beginner. In many cases when one goes to an astrologer various terms are often used and often a beginner may have no idea what the astrologer is talking about. Therefore many of the terms are described in easy to understand English. In the gemological section there are descriptions of the astrological uses of the gems, how they benefit a person, who should wear each particular gem, and what is a good or bad gem. There are also some useful terms described in reference to gemology. Vastu Sastra is the Vedic or Indian science of building. By building a house under the rules of Vastu Sastra it can influence the fortunes of the residents.

This book gives some ideas how one should build a house in a way that will have a positive influence on the people living in it. It also describes how the things should be placed in the inside of the house. There is also a description of what decisions should be made before a house should be purchased.
