**Venus** Ronnie Gale Dreyer, 1994 The Goddess Venus has long been an inspiration to artists, writers and composers, while the word 'Venus' itself conjures up images of the perfect woman - an ideal of feminine beauty. This image works not only to dictate a certain aesthetic ideal, but also distorts the original goddesses of love and fertility from whom Venus and Aphrodite are descended.

**Venus** Andrew Dalby, 2005 The life story of the irresistibly beautiful love-goddess Venus--sensual, sexy, and seductive--as never told before.

**The Mythology of Venus** Helen Benigni, 2013-06-03 The Mythology of Venus is a collection of essays that summarizes the archaeoastronomy, calendar associations, religious and cultural icons, and myths identified with the planet Venus. The book concentrates on Western Europe, the Mediterranean, the Near East, and the East from the Paleolithic Age to the Iron Age. It reveals the archetype of a goddess associated with the planet Venus who is identified with transformation, spiritual resurrection, and enlightenment. The characteristics of the goddess are steeped in sexual metaphors which contain images of birth and re-birth, and they reveal a pattern of symbols that follows the journey of the planet Venus through its cycles in the night sky. Moreover, the journey of Venus and the corresponding icons associated with the goddess are part of an intricate pattern of symbolic language that is seen on ancient monuments and on the ancient calendars of several cultures. Temples from France and Ireland to Greece and Malta trace the journey of the planet Venus and the story of the goddess of Venus.

The Story of Venus Andrew Dalby, 2005 The fabulous story of the goddess Venus, also known by her Greek name Aphrodite, begins with her mysterious birth in the Aegean Sea. She emerges on the coast of Cyprus full-grown, shapely and desirable. With one hand she wrings her long, wavy hair, still wet from the waters of the sea, and with the other she pretends to conceal the secret places of her body. She stands on a scallop-shell, perfect and beautiful, as in the famous Botticelli painting. In fact, the ancient love goddess has many origins and many histories. The Minoans of Crete, the Sumerians of Mesopotamia, the Romans who adopted her from the Greeks - all were fascinated by the beautiful female in whose keeping were the hearts of mere mortal men and women. Her son Eros (Cupid), her many lovers and her amorous adventures have taken root in our collective consciousness ever since. This 'biography' of Venus is ideal reading for all who enjoy mythology and storytelling.

**THE EVOLUTION OF THE GOD ILLUSION** Ir. Jim K K Wong, 2012-06-16 As one may have read Cicero in *The Nature Of The Gods*, ancient people were vivid observers of the sky and the celestial bodies because of their livelihood- they were mostly engaged in agriculture and animal husbandry. The cycles of nature and seasons were the most important factors affecting farming civilizations. The brilliant 'stars' Jupiter, Saturn, Venus and the zodiac were also objects of great interest. These heavenly bodies were regarded as deities even by learned philosophers. Cicero and Socrates had a field day demolishing these strongly held prevailing ideas. One popular god illusion of the West and Middle East began with patriarch Abraham who was an astronomer from Mesopotamia. He studied Jupiter avidly and could predict its behavior which he used

it to his advantage in his migration to the Fertile Crescent and in his encounters with hostile inhabitants. Abraham had the delusion that Jupiter-Yahweh was a deity who could be depended to assist him in troubled times. The Yahweh Delusion was passed down from Abraham to son Isaac and grandson Jacob. Jacob's 12 sons migrated to Egypt, multiplied and eventually became slaves. Moses a pariah Egyptian prince became the rebel leader of the Hebrew slaves when he discovered his roots. At the opportune moment, c.1450 BCE, Venus erupted from unstable fast-spinning Red Giant Jupiter and shot into the inner solar system like a billiard ball along a highly elliptical orbit. It had several close encounters with Earth, Moon and Mars and created stunning phenomena or 'miracles' such as the much exaggerated Ten Plagues, parting of the Red Sea, the rain of manna, apparent stopping of the Earth's rotation, and even the destruction of the mighty army of Sennacherib near Jerusalem. Moses and his successors apparently knew and could predict more or less unusual celestial phenomena and attributed them to a tribal deity Yahweh who was connected with their deliverance and survival. Every successful prediction or expectation resulted in augmenting the god illusion. The god illusion evolved through stupendous sagas, cross fertilized by neighbors and reformers roughly from 1500 BCE to 500 BCE. However, the Hebrews had a confused idea of this savior deity and its feminine aspects, such as the Celestial Cow giving manna-milk. In the evolutionary process, Yahwist patriarchs literally wrote off the influential Goddess and made Yahweh a lone male god of Judaism and Christianity. The underlying motive developing this god illusion is Moses' and Israel's covetousness of the fertile Holy Land. Moses needed a justification to commit genocide, to rob, loot, destroy and drive out people inhabiting the land of milk and honey. The justification is a tribal god of Israelites who gives mandate to his chosen race to rob and steal the Promise Land from 'evil' worshippers of false gods! The underlying theory for this god illusion evolution hypothesis is based on Immanuel Velikovsky's bestseller of the 1950s, *Worlds in Collision*. This hypothesis met fierce opposition in academia and Establishment Science. The AAAS Symposium 1974 was convened to address the serious challenge. Here, the author produces abstracts from various experts in various disciplines of sciences and arts to counter objections to the underlying theory. The god illusion presented here is my own interpretation of the psychological impacts and aspects of these astounding celestial phenomena. I am using appropriate knowledge in several disciplines to support my thesis, such as radiation chemistry, upper atmosphere chemistry and behavioral science. My training as a stock analyst to read the underlying environment enables me to read in between the lines, to speculate and connect the gaps and dots together and present a satisfying version of the god illusion.
