**The Earth Is Flat! - The Vedic Perspective** Hariprem Das, 2022-10-06 From the perspective of Vedic scripture (commonly referred to as the Hindu scripture), the earth is flat. We are on an island called JAMBŪDVĪPA and there are more islands which are undiscovered due to our collective sinful karma. Jambudvipa itself hasn't been fully discovered yet, and we only know about a discovered part of what is called Bhārata-varṣa (which is within it). As per ISKCON founder Srila A.C. Bhaktivedanta Prabhupada, our discovery of greater regions is as that of a bull tied to a stake, which keeps going round and round, and so we mistakenly imagine the earth as a round globe. This is primarily due to consequences of greed in us, that we feel that we are floating in space with no one else in a Godless universe. However, that isn't so. Our greed pushed us to make a magnetic compass (for example) and follow its needle which supposedly changes with earth's magnetic field. However, the bhu-mandala ie earth plane, does not have any magnetic waves at all! Those are emitted by Rahu planet (greed/attachment/magnetism (since it attracts)) which is a shadow planet (and is the north node of the moon). The opposite of Rahu is Ketu planet (detachment/south node of the moon) forming the positive and negative axis of magnetism. So, the compass needle is actually pointing to this Rahu ketu axis of magnetism! And not the earth plane. For this reason, we keep going round and round like a bull tied to a stake, and are unable to discover the greater regions and are limited like a toad in a well, who cannot fathom the grandeur of the ocean! Come and let's journey together to know exactly how large the flat earth plane really is, and all the fantastic beings that live on it!

*Why Did Yahweh and His Son Yahshuah Say What They Said?* Dr. Justin G. Prock, 2020-05-07 YAHWEH (The LORD God) and His Son YAHSHUAH (Jesus Christ) made statements with regard to Eschatology that have been "Spiritualized" for over a Millennium, which has led to the belief in Universalism, the belief that YAHSHUAH died for EVERYONE. Well, after one studies the original languages of the Hebrew, Aramaic, and Greek, the message of the Kingdom of God was preached to and accepted by a certain House in the Bible. The other House rejected this message, and YAHSHUAH punished that House by

taking the Kingdom away from them and giving It to another nation bringing forth fruit. There are only the House of Israel, the House of Judah, and the House of David, mentioned in the Bible. All three existed then, as they do today. However, most of today's Babylonian Priesthood/Churchianity refuses to accept the secular historical position with regard to the House of Israel, and who they are today. The people groups, which YAHWEH and YAHSHUAH addressed, still exist today. However, these people are all mixed-up, and known by different names, but they DO exist. This book goes back to the origin of these people groups in the Bible, and brings them forward to the present using their old names, in order to understand Eschatology. This brings us to the major question of, "Is the Bible only about Israel?" And, if so, how does it affect our Eschatology today? This book answers these hard questions...

**Extraordinary Popular Delusions of Our Times** Daniel Martin, 2024-10-16 After graduating from college in 1979, Daniel Martin stuck his thumb out on Interstate 94 in St. Paul, Minnesota, hitchhiking east. He returned a year later, still hitchhiking east. While on that journey around the world, he read Charles Mackay's Extraordinary Popular Delusions and the Madness of Crowds, first published in 1841. Mackay wrote about the tulip bulb mania and the poor sailor who mistook a priceless bulb for an onion and ate it for breakfast. He wrote about alchemy, which was practiced with all seriousness by great thinkers of the time like Thomas Aquinas and Roger Bacon. He wrote about the Crusaders who raped and pillaged their way to Jerusalem in order to save their souls. He wrote about witch burning, a popular delusion that at its peak killed more than five hundred women annually in England alone. Daniel Martin was captivated by how relevant and relatable this history remained nearly two centuries later. Seventeenth-century tulip bulb markets bear a striking resemblance to today's cryptocurrency exchanges. Magnetizers and hypnotists still ply the back alleys of alternative medicine as they did two hundred years ago, but now they are accompanied by homeopaths, acupuncturists, and energy healers. Even in modern times, people still die from religious delusions like suicide bombing, Jonestown, and the Kenya Starvation Cult. The idea of a sequel to Mackay's work percolated in the deep recesses of Daniel Martin's brain for more than forty years and is finally now in print. The work includes volumes on Health Delusions, Financial Delusions, and Political, Cultural, and Religious Delusions. Reading Mackay's original work is not a prerequisite, and chapters may be read in any order. So pick your favorite delusion and enjoy! **Intersections of Religion and Astronomy** Chris Corbally,Darry Dinell,Aaron Ricker,2020-11-01 This volume examines the way in which cultural ideas about the heavens shape religious ideas and are shaped by them in return. Our approaches to cosmology have a profound effect on the way in which we each deal with religious questions and participate in the imaginative work of public and private world-building. Employing an interdisciplinary team of international scholars, each chapter shows how religion and cosmology interrelate and matter for real people. Historical and contemporary case studies are included to demonstrate the lived reality of a variety of faith traditions and their interactions with the cosmos. This breadth of scope allows readers to get a unique overview of how religion, science and our view of space have, and will continue to, impact our worldviews. Offering a comprehensive exploration of humanity and its relationship with cosmology, this book will be an important reference for scholars of Religion and Science, Religion and Culture, Interreligious Dialogue and Theology, as well as those interested in Science and Culture and Public Education.
