## **88 Precepts** David Lane, 1990

*Encyclopedia of White Power* Jeffrey Kaplan, 2000 This volume takes an objective look at the white supremacy movement since WWII in the United States and Europe, and offers entries describing the people, groups, and themes that make up the radical racist right. Some of the entries have been written by movement activists, others by a variety of scholars. The second half of the volume includes primary documents of resources circulated within the movement, each prefaced by Kaplan (American studies, U. of Helsinki, Finland) and placed in historical and scholarly context. The material is at times offensive, but presented in an academic way. Annotation copyrighted by Book News Inc., Portland, OR

**Hate Groups and Extremist Organizations in America** Barry J. Balleck, 2019-07-08 This expansive collection of A-Z entries offers a compelling look into hate groups in America. Focusing on organizations in operation today, this resource book for student and general audiences covers numerous hot-button issues in politics and culture. The Southern Poverty Law Center lists nearly 900 hate groups active in the United States today. Some of these, such as the KKK, have deep roots in American history. Others are newer, formed in response to policies and shifts in our cultural landscape. Often these organizations imply defense of America and political ideals in their names, such as Council of Conservative Citizens and American Family Association. Some, such as White Aryan Resistance and Supreme White Alliance, are more direct in their associations. Nearly all posit an erosion of rights and values; a way of life that is becoming lost to immigrants; a diffusion or integration of population; and government overstep. Many of these groups preach a necessity for violence, through either outright or thinly veiled language. Membership in these organizations poses another topic for investigation, as their ranks are not just anti-government or pro-gun rights types who seek to defend the Constitution. Many are simply citizens who see their ideal for America as under threat by various groups—whether ethnic, racial, or religious. This unique reference will allow readers to explore the underlying issues central to understanding them. How do these hate groups get started, and why do people join?

**Spiritual and Visionary Communities** Timothy Miller, 2016-04-01 Exploring religious and spiritual intentional communities active in the world today, *Spiritual and Visionary Communities* provides a balanced introduction to a diverse range of communities worldwide. Breaking new ground with its focus on communities which have had little previous

academic or public attention, the authors explore a part of contemporary society which is rarely understood. Communities studied include: Israeli kibbutzim, Mandarom, the Twelve Tribes, 'The Farm' and the Camphill movement. Written from a range of perspectives, this collection includes contributions from members of the groups themselves, former members, and academic observers, and as such will offer a unique and invaluable discussion of religious and spiritual communities in the U.S., Europe, and beyond.

Black Sun Nicholas Goodrick-Clarke, 2003-07 The Unpredictable Constitution brings together a distinguished group of U.S. Supreme Court Justices and U.S. Court of Appeals Judges, who are some of our most prominent legal scholars, to discuss an array of topics on civil liberties. In thoughtful and incisive essays, the authors draw on decades of experience to examine such wide-ranging issues as how legal error should be handled, the death penalty, reasonable doubt, racism in American and South African courts, women and the constitution, and government benefits. Contributors: Richard S. Arnold, Martha Craig Daughtry, Harry T. Edwards, Ruth Bader Ginsburg, Betty B. Fletcher, A. Leon Higginbotham, Jr., Lord Irvine of Lairg, Jon O. Newman, Sandra Day O'Connor, Richard A. Posner, Stephen Reinhardt, and Patricia M. Wald.

Thinking Like a Terrorist Mike German, 2007 As the fifth full year of America's global war on terrorism continues, statistics concerning terrorist attacks show a disturbing trend: from a twenty-one-year high in 2003, attacks tripled in 2004 and then doubled in 2005. And as the incidence of terrorist attacks increased, so has the number of terrorists. While the primary leaders of the Taliban, al Qaeda, and al Qaeda in Iraq remain at large, a 2006 Department of Defense study reportedly identified thirty new al Qaeda-affiliated terrorist groups that have been created since September 11, 2001. We may not have metrics that measure our success in the war on terrorism, but these realities certainly illuminate our failures. In *Thinking Like a Terrorist*, former FBI counterterrorism agent Mike German contends that the overarching problem is a fundamental failure to understand the terrorists—namely, what they want and how they intend to get it. When our counterterrorism policies are driven by misunderstanding and misperception, we shouldn't be surprised at the results. Today's terrorists have a real plan—a blueprint that has brought them victory in the past—that they are executing to perfection; moreover, their plan is published and available to anyone who bothers to read it. Once the terrorists' plan is understood, we can develop and implement more effective counterterrorism strategies. A former undercover agent who infiltrated neo-Nazi terrorist groups in the United States, German explains the terrorist's point of view and discusses ways to counter the terrorism threat. Based on his unusual experience in the field, *Thinking Like a Terrorist* provides unique insights into why terrorism is such a persistent and difficult problem and why the U.S. approach to counterterrorism isn't working.

*Aviation and Airport Security* Kathleen Sweet, 2009 Considered the definitive handbook on the terrorist threat to commercial airline and airport security, Sweet's seminal resource is now updated to include an analysis of modern-day risks as well as an examination of the plethora of changes made to air security policies, practices, and regulations since 9/11.

*Resistance* ,1994

*Terrorism and Airport Security* Kathleen M. Sweet,2002 Comprehensive review of the history of aviation security including terrorism. Including an outline of passenger/cargo screening and airport facilities security.

Mixed Messages David L. Brunsma,2006 The experiences and voices of multiracial individuals are challenging current categories of race, profoundly altering the meaning of racial identity and in the process changing the cultural fabric of the nation. Exploring this new reality, the authors of Mixed Messages examine what we know about multiracial identities - and the implications of those identities for fundamental issues of justice and equality.

*Myter om det nordiska* Catharina Raudvere,Anders Andrén,Kristina Jennbert,2001 I dag assosieres den førkristne nordiske mytologien ofte med politisk ekstremisme, ikke minst i internasjonal sammenheng. Synet på den nordiske mytologien komplekst og vanskelig å håndtere, i motsetning til den greske mytologien som virker mindre ladet. I denne boken diskuterer forfatterene hvordan synet på det nordiske mytologien har forandret seg. Fra 1800-tallets slutt, da de gamle gudene både var politisk og estetisk gangbare, til dagens samfunn da mytene ofte er redusert til skolebokkunnskap. Forfatterene av boken er forskere innen religionshistorie og arkeologi. Denne boken er første bok i et tverrvitenskapelig prosjekt kalt Vågar till Midgård. Har innholdsfortegnelse, forord, register og litteraturliste.
