Twentieth-Century and Contemporary American Literature in Context Linda De Roche,2021-06-04 This four-volume reference work surveys American literature from the early 20th century to the present day, featuring a diverse range of American works and authors and an expansive selection of primary source materials. Bringing useful and engaging material into the classroom, this four-volume set covers more than a century of American literary history—from 1900 to the present. Twentieth-Century and Contemporary American Literature in Context profiles authors and their works and provides overviews of literary movements and genres through which readers will understand the historical, cultural, and political contexts that have shaped American writing. Twentieth-Century and Contemporary American Literature in Context provides wide coverage of authors, works, genres, and movements that are emblematic of the diversity of modern America. Not only are major literary movements represented, such as the Beats, but this work also highlights the emergence and development of modern Native American literature, African American literature, and other representative groups that showcase the diversity of American letters. A rich selection of primary documents and background material provides indispensable information for student research.

Irishness in North American Women's Writing Ellen McWilliams,2021-01-25 This book examines ideas of Irishness in the writing of Mary McCarthy, Maeve Brennan, Alice McDermott, Alice Munro, Jane Urquhart, and Emma Donoghue. Individual chapters engage in detail with questions central to the social or literary history of Irish women in North America and pay special attention to the following: discourses of Irish femininity in twentieth-century American and Canadian literature; mythologies of Irishness in an American and Canadian context; transatlantic literary exchanges and the influence of canonical Irish writers; and ideas of exile in the work of diasporic women writers.

Acts of Faith and Imagination Brent Little,Mark Bosco, SJ,2023-08-04 Acts of Faith and Imagination wagers that fiction written by Catholic authors assists readers to reflect critically on the question: "what is faith?" To speak of a person's "faith-life" is to speak of change and development. As a narrative form, literature can illustrate the dynamics of faith, which

remains in flux over the course of one's life. Because human beings must possess faith in something (whether religious or not), it inevitably has a narrative structure—faith ebbs and flows, flourishes and decays, develops and stagnates. Through an exploration of more than a dozen Catholic authors' novels and short stories, Brent Little argues that Catholic fiction encourages the reader to reflect upon their faith holistically, that is, the way faith informs one's affections, and how a person conceives and interacts with the world as embodied beings. Amidst the diverse stories of modern and contemporary fiction, a consistent pattern emerges: Catholic fiction portrays faith—at its most fundamental, often unconscious, level—as an act of the imagination. Faith is the way one imagines themselves, others, and creation. A person's primary faith conditions how they live in the world, regardless of the level of conscious reflection, and regardless of whether this is a "religious" faith. Acts of Faith and Imagination investigates the creative depth and vitality of the Catholic literary imagination by bringing late modern Catholic authors into dialogue with more contemporary ones. Readers will then consider well-known works, such as those by Graham Greene, Flannery O'Connor, and Muriel Spark in the fresh light of contemporary stories by Toni Morrison, Alice McDermott, Uwem Akpan, and several others.

Timetables of History for Students of Methodism Rex D. Matthews,2007-06-01 Winner of the 2007 Saddlebag Selection Award from the Historical Society of The United Methodist Church as "the best book published during the year on the history, biography, polity or theology of United Methodism or its predecessors." Understanding history rests largely on a grasp of two things: sequence and context. Know which events came earlier and which later, and you've gone a long way toward understanding influence and causation. Know what was going on in the wider world at the same time a historical event occurred, and you'll better grasp the meaning and significance of that event for the people who experienced it. Yet even with the best history textbooks students have difficulty in gaining an immediate sense of sequence and context. Hence

the purpose of this book: To lay out the most important events in the history of the Wesleyan/Methodist movement, to show them in their proper order, and to include the most important occurrences taking place on the national and international stages at the same time. Matthews presents his material in an easy to comprehend and visually appealing layout, enumerating the major trends and developments in Methodist history from 1700 to 2004. Rex D. Matthews is Assistant Professor in the Practice of Historical Theology at Candler School of Theology, Emory University, Atlanta, Georgia. He currently serves as co-chair of the Wesleyan Studies Group of the American Academy of Religion, as General Editor of the Kingswood Books series, and as Managing Editor of the new electronic academic journal Methodist Review. An excerpt from the Circuit Rider review: This is a book for college and seminary professors, for high school teachers of religion, for Sunday School teachers of children, youth and adults. It is a book for preachers and church musicians. It should be in every church library. This is a book for people who think history is boring as well as for those who delight in rich historical detail and story. It is a book to be savored and returned to again and again. And this is a book for all who love the church and yearn to be part of perfecting its mission and its life. (Click here to read the entire review.)
