**The Art of Living Foundation** Stephen Jacobs, 2016-03-09 The Hindu-derived meditation movement, The Art of Living (AOL), founded in 1981 by Sri Sri Ravi Shankar in Bangalore, has grown into a global organization which claims presence in more than 150 countries. Stephen Jacobs presents the first comprehensive study of AOL as an important transnational movement and an alternative global spirituality. Exploring the nature and characteristics of spirituality in the contemporary global context, Jacobs considers whether alternative spiritualities are primarily concerned with individual wellbeing and can simply be regarded as another consumer product. The book concludes that involvement in movements such as AOL is not necessarily narcissistic but can foster a sense of community and inspire altruistic activity.

**Hegel's Phenomenology of Spirit** Richard Dien Winfield, 2013-06-27 Hegel's Phenomenology of Spirit: A Critical Rethinking in Seventeen Lectures provides a clear and philosophically engaging investigation of Hegel's first masterpiece, perhaps the most revolutionary work of modern philosophy. The book guides the reader on an intellectual adventure that takes up Hegel's revolutionary strategy of paving the way for doing philosophy without presuppositions by first engaging in a phenomenological investigation of knowing as it appears. That preliminary investigation observes how the prevailing view of knowing that condemns cognition to operating with presuppositions proves unable to justify its own knowledge claims and ends up undermining the distinction between knowing and its object on which that view depends. Unlike other studies of Hegel's Phenomenology of Spirit, the work rethinks the entire argument with sustained attention to the project that gives the work its revolutionary significance. Free of unnecessary jargon and always focusing on clearly unraveling the argument in its entirety, Hegel's Phenomenology of Spirit: A Critical Rethinking in Seventeen Lectures, will be indispensable to

undergraduate and graduate students of philosophy, Hegel scholars, and anyone interested in tackling the radical project of doing philosophy without foundations.

**Globalization and Human Subjectivity** Yun Kwon Yoo, 2021-10-14 Globalization and Human Subjectivity argues that Hegelian subjectivity could serve as a philosophical basis for a new conception of human subjectivity for the age of globalization. Why, then, does globalization demand a new conception of human subjectivity at all? What constitutes the Hegelian subjectivity such that it is not only relevant and but also necessary to the contemporary, postmodern context of globalization? This book largely addresses these two questions. Capitalist globalization, the context in which we find ourselves today, strategically leads to the “death of the subject,” in the sense that it reduces human beings merely to consumers who, without critical subjectivity, simply succumb to the imperialism of a globalizing market. In this context, we are impelled to envision a new conception of human subjectivity for the age of globalization. This book explores Hegel’s view on human subjectivity as spiritual subjectivity, particularly presented in his Phenomenology of Spirit, which could function as a new anthropological vision about what it means to be authentically human in a globalizing world, that is, a sort of cosmopolitan citizen who is constantly universalizing oneself through self-transcending, self-determined ethico-political actions in solidarity with others to create a global community of co-existence and co-prosperity for all.

*Brit Cult* Andrew Calcutt, 2001 From Acid Jazz to Peter Sellers, a quick-take who's who of British pop culture From the Swinging 60s and the mods, from the seventies and the punks to Generation E, Britpop and Cool Britain--the past 50 years have seen a steady stream of world-sweeping movements, trends, and styles come out of the British Isles. In this hip, fast-paced look at who's who and what's what of British popular culture, cultist Andrew Calcutt explores more than 200 key people, products, and phenomena in British popular culture. Calcutt deftly deconstructs hundreds of Brit Cult icons--such as Monty Python, J. G. Ballard, Nick Hornby, Martin Amis, Doc Martens, E-Type Jaguars, glam, and goth, Malcolm McClaren, Blur, Oasis, The Kinks, The Who, and the Stones--and identifies who or what they are, what they represent to us, and what they have, in turn, inspired. Each entry is a brief, stand-alone essay providing biographical details, analysis, observation, and opinion; but, taken together, the essays add up to a revealing portrait of the good (The Beatles), the bad (racist skinheads) and the ugly (football hooligans) of British pop culture in all its many facets.
