Franz Liszt's Music Manuscripts in the National Széchényi Library, Budapest Mária Eckhardt (musicologue), Országos Széchényi Könyvtár, 1986 The Music Division of the National Széchényi Library (Budapest) houses 78 music manuscripts and scores, with all or part of each penned in the hand of Franz Liszt, one of Hungary's most prominent native sons. The library is the primary Hungarian public collection of Liszt's works and is among the world's most comprehensive. This book details the collection, classifying the works as (i) Liszt's compositions-autograph manuscripts, manuscript copies, proof-sheets or printed copies with additions and corrections in Liszt's hand (62 items); (ii) Liszt's compositions-printed or manuscript copies with autograph dedications (10 items); and (iii) Liszt's corrections and manuscript notes in and to works by other composers (6 items). Seventy-three music examples and 20 facsimile illustrations are also included. While other catalogues have been devoted to these Liszt compositions, this is the first to take full and accurate account of the collection to date. Thorough philological data of the documents, and descriptions and evaluations among the sources of the given composition are supplied. Maria Eckhardt's insightful additions concerning performance history and Liszt's relationships with dedicatees and fellow composers, based upon her previously published research, provide an enriched understanding of the compositions and their creator.

The Psychology Major's Handbook Tara L. Kuther, 2024-02-19 Research shows that today's students are unique. Whether anxious, overwhelmed, or too busy to ask for help, modern students trust and turn to the resources at their fingertips for guidance. Tara Kuther created The Psychology Major's Handbook for this purpose, to bridge the gap between advisor and manual. Created to support and follow along with a student through college, this text provides the support of an advisor as students navigate choosing a major, learning how to study, writing papers, and deciding what to do after college. Within each chapter, Kuther supports learners in applying concepts to their own lives through embedded exercises. The updated Sixth Edition encourages students to take an active role in their education and explains all of the ways that students can influence their own college experiences. Three individual chapters emphasize academics and cover crucial study and college skills,

such as writing a review paper, and an APA Style empirical paper. The final four chapters of the text focus on bachelor's and graduate opportunities to help students to look past graduation.
