Numerology Secrets Part 2 Saket Shah,2022-05-29 Numerology uses numbers as a key to human behavior. It is an easy-to-learn method that exercises the mind's intuitive faculty to fathom the depths of human personality. Numerologists have to forget their own identities and devote themselves totally to exploring the personalities of others. They must learn to become calm and empty before they are able to use their intuition. Practicing the art of numerology creates endurance, patience, and pointedness. Experience teaches numerologists more than books can teach. The information contained in books only opens the windows of the mind. One then has to work with one's personal understanding of that information. Information alone is not knowledge; direct experience must be added before information becomes knowledge. Numerology is simple to learn and very engaging, like the creative arts. It teaches one sympathy toward others. For a numerologist the planets become embodied in a human form, and he or she can closely observe them as a part of the cosmic play. Those people who do not allow themselves the freedom of seeing the influence of the celestial and astral bodies cannot observe this play. Planets for them are objects in outer space that have no influence on their physical and mental make-up. To them all predictive sciences are useless. People who have time, faith, and enough patience, however, can watch this play and learn from it the lessons that will guide the consciousness of coming generations. Numerology is not a complete science. It is just one branch of the predictive sciences. To be a good numerologist one must become a good observer and a patient listener. Study of physiognomy and astrology is very necessary. Numerology is much simpler than astrology and does not require complicated mathematical calculations. There are just three things a numerologist needs to know: the day of the month a person was born, the numerological value of his or her popular name, and the person's total birth information (date, month, and year). From astrology, the numerologist needs to know about all the zodiac signs, and a person's day of birth, sun sign, and moon sign. In India, the season during which a person was born also has to be known, since that has an effect on one's temperament. Certain information from physiognomy needs to be learned as well, such as how the shape and form of the various body parts correlate with an individual's thinking process. (It is known, for example, that the perceptual world of tall people is different from that of short people.) The purpose of working with numbers is to save energy. People who act without a proper understanding of the right moment to start a job waste a lot of energy by making the wrong moves. Numerology provides the knowledge for such things as how to select the right moment, the right relationship, the right dwelling place—thereby saving energy.

Numerology for Healing Michael Brill, 2008-11-25 A unique approach to using numerology to identify life challenges and karmic lessons to heal emotional and physical problems • Provides a clear method for identifying challenges specific to your birthday and name • Details 185 health conditions and how to address the causes using numerology--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer • Offers guidance in understanding universal abandonment issues and how these affect our behavior In *Numerology for Healing*, Michael Brill combines numerology with psychology, quantum physics, and the concepts of gematria and reincarnation to create a unique approach to healing emotional and physical problems based on life challenges and karmic lessons. Humans suffer from a profound sense of abandonment when the soul is decanted from the Universal Oneness into the confines of a personality. Brill explains how this sense of abandonment manifests itself in two principal types of behavior: people work to be loved and appreciated for who they are, or they try to control and micromanage their lives and relationships so that nothing goes wrong. Both of these behavior patterns are exhausting physically, emotionally, and mentally and are clear catalysts for illness. Brill details 185 physical and mental health conditions and shows how to identify and treat the causes--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer. For instance, he reveals that, in general, illnesses beginning with the letter "A" (acne and alcoholism) have issues of self-esteem as one of the basic causes, whereas illnesses beginning with letter "G" (gallstones and glaucoma) are associated with a need to be in control, in relationships or at work. By using the numerology of your birth date and name, *Numerology for Healing* makes it easy to identify your positive and negative tendencies and characteristics and to use them as the key to achieving a healthier life.

Breaking the Code Donna Linn, 2012-01-01 Breaking the Code is a most amazing book that takes numerology to the next level. I've read many books on numerology; this book is the college edition. I was amazed at the accuracy of the reading with happenings in my life. -Matthew Pierce, I.T. consultant Through this next level of numerology, Donna brings a greater awareness to the reader about themselves, and future life events. -Todd Branson, co-author Higher Mind, Lower Mind If you have been interested in numerology using the first 9 numbers with 26 letters, you will find that this book takes numerology further into the gradations of each number. It uses 26 numbers with 26 letters to get nuances of the original 1-9 numbers usually used in a reading. Each letter has its own number from A=1 to Z=26 and there is very little reducing to the numbers

1-9. This work also introduces more master numbers, initiation numbers, opposite numbers, and complementary numbers. The second part of this book uses your birth data to find years that are important to you in four areas-physical, mental, emotional, and spiritual. Here is used not only the month, date, and year, but also the time of birth-- similar to what is used in astrology. There are also some designs that show the relationship of the numbers to the inner core of light within a diamond. The third part of the book shows the stems of years from the year 1 to 4000 A.D.; how they make a design and repeat every millennium. Each of these millennia repeats the lessons of the previous one and is shown in two ways. Here is much more of this hidden information that needs to be re-learned and released for everyone to use. My belief is that this is just a very small portion of what was lost and needs to be re-found. Donna Linn is available for workshops, seminars and special events. Please contact her at rmes420234@aol.com

Breaking the Code, Donna Linn's masterwork of numerology transcends all information on the subject that I have encountered. Her work will transform basic numerology which has existed for quite some time into a scientific study with depth akin to astrology. I expect her work to become THE reference book on the subject. -Todd Rohlsson, Living Light Alchemy Designs
