Autobiografía y otras páginas (Adobe PDF) Gertrudis Gómez de Avellaneda,2015-06-23 Biblioteca Clásica dela Real AcademiaEspañola. Joyas universales de nuestras letras Biblioteca Clásica de la Real Academia Española. Joyas universales de nuestras letras La confesión que la supersticiosa y tímida conciencia arranca a una alma arrepentida a los pies de un ministro del cielo, no fue nunca más sincera, más franca, que la que yo estoy dispuesta a hacer a usted.» Así se inicia la Autobiografía, un escrito íntimo escrito en 1839 y enviado a su amante Ignacio Cepeda, que se publica por primera vez en 1907 y que supone el texto central del presente volumen. Se incluyen también Sab: novela original, relatos de viaje y leyendas, así como diversas cartas y poesías.

La transmisión de valores a través del lenguaje cinematográfico Peña Acuña, Beatriz,2014-06-20 Este ensayo está concebido con la intención de clarificar conceptos y de sentar las bases teóricas que sirvan de fundamento para la intelección de un proceso complejo: la posibilidad efectiva de transmisión de valores a través del lenguaje cinematográfico. La novedad del planteamiento se debe a que tiene en cuenta los propios medios del lenguaje visual, el modo como se produce la intervención del director con su obra, el efecto de la misma y la naturaleza del receptor. El texto presente obedece a un deseo de encontrar un posible camino de exploración entre ciertas variables que intervienen en este producto multidimensional que es el cine. Por tanto analizamos, desde una perspectiva histórica, las posturas científicas; se encuentran modelos compatibles y conceptos teóricos sólidos que sirvan de apoyo específicamente a la hipótesis acerca de la intencionalidad de los directores de cine, al tiempo que de instrumento de valoración tanto de los elementos cinematográficos concretos que usan como de los mecanismos de identificación del espectador con el héroe de la película. La densa y al mismo tiempo ágil exposición del panorama teórico facilita al lector, así lo pretendemos, el hilo conductor que le permite adentrarse a través del planteamiento que conduce al desenlace de la transmisión. Sin embargo, reconocemos más

ambiciosos nuestros objetivos. Esperamos que, por la aportación de pensamientos expositivos, la lectura sea una fuente de iniciativas, creativa y enriquecedora. Más que cerrar vías de investigación en Estudios de cine, y en un sentido más amplio, en las Ciencias Sociales, nos atrevemos a abrirlas e inspirarlas con nuestras propuestas.

Independence in Central America and Chiapas, 1770-1823 Aaron Pollack, 2019-04-18 Central America was the only part of the far-reaching Spanish Empire in continental America not to experience destructive independence wars in the period between 1810 and 1824. The essays in this volume draw on new historical research to explain why, and to delve into what did happen during the independence period in Central America and Chiapas. The contributors, distinguished scholars from Central America, North America, and Europe, consider themes of power, rebellion, sovereignty, and resistance throughout the Kingdom of Guatemala beginning in the late eighteenth century and ending with independence from Spain and the debate surrounding the decision to join the Mexican Empire. Their work reveals that a “conflict-free” separation from Spain was more complex than is usually understood, and shows how such a separation was crucial to late-nineteenth-century developments. These essays tell us how different groups seized on the political instabilities of Spain to maximize their interests; how Latin American elites prepared elaborate rituals to legitimize power dynamics; why the Spanish military governor Bustamante’s role in Central America should be reconsidered; how Indian and popular uprisings had more to do with tax burdens than with independence rhetoric; how the scholastic thought of Thomas Aquinas played a role in political thinking during the independence period; and why Mexico’s Plan de Iguala, the independence program promoted by Agustín de Iturbide, finally broke Central American elites’ ties to Spain. Focusing on regional and small-town dynamics as well as urban elites, these essays combine to offer an unusually broad and varied perspective on and a new understanding of Central America in the period of independence.

¡Que le den a la ciencia! Rocío Vidal, 2019-09-19 ¡Que le den a la ciencia! -con prólogo de Ramón Nogueras- es el más eficaz antídoto contra los bulos. Un libro de pura y sana divulgación científica. Homeopatía, chamanismo, reiki..., muchas son las terapias alternativas que promocionan algunas personas --entre ellos varios influencers muy populares-- como si fuesen la cura definitiva, y real, de todos los males. Sin embargo, como ha podido demostrar Rocío Vidal en sus videos, ninguna de la información que se transmite sobre éstas tiene estudios serios o científicos de su veracidad. De este modo, esta periodista y divulgadora científica ha comenzado una cruzada para destapar timos, mitos y charlatanerías pseudocientíficas desde su canal de vídeos, La gata de Schrödinger. Y, a la vez, para enseñarnos la importancia que tiene la ciencia en la sociedad.

CUIDA-2 María Dolores Calero García, Elena Navarro, Miriam Sanjuán, María José Calero García, Ana Raquel Ortega, 2017-09-21 El cuidado de las personas mayores cuando estas presentan dificultades en actividades de la vida diaria

es una de las principales preocupaciones que surgen cuando alguien tiene que enfrentarse a la tarea de atender a un ser querido o delegar esta labor en otra persona o institución que actúe de cuidador. Sin duda, una correcta forma de proceder del cuidador puede influir muy positivamente en el estado cognitivo, funcional y emocional de la persona tratada favoreciendo su autonomía e independencia y manteniéndola el mayor tiempo posible con buenos niveles de funcionamiento. Para ello, los cuidadores deben tener la formación y conocimientos necesarios y contar con herramientas que les ayuden en su día a día. El programa CUIDA-2 ayudará a todas aquellas personas que están cuidando a personas mayores y quieren hacerlo lo mejor posible. El lector encontrará estrategias sencillas y prácticas que le permitirán fomentar la autonomía y mejorar el estado cognitivo, funcional, físico, nutricional y emocional de la persona a la que cuida. Es una guía sencilla y práctica, a la vez que rigurosa, ya que se basa en investigaciones actuales del ámbito de la gerontología. El programa consta de cinco módulos, independientes entre sí, que proporcionan recursos y herramientas útiles para la estimulación integral del atendido y que enseña a trabajar diferentes objetivos a la vez que se cuida a una persona mayor. El beneficio es para las dos partes, cuidador y cuidado. Su uso repercutirá en el bienestar tanto de los mayores como de los cuidadores que lo utilicen.

El Pequeño Gran Libro de la Felicidad Felicidad Cristobal Rodriguez, 2022-07-26 But why am I not happy? That question we have all asked ourselves so many times is an excellent question to start the path. Contrary to the rest of the aspects of our lives—in which we make a great effort to achieve our goals, when we talk about happiness we find ourselves surprised about the fact that we are not happy and, at the same time, believe it to be something that simply arrives, we want it to stay but, sooner or later, leaves. And what we don't get is why, as we seem to be doing everything we were taught as children in order to be happy. Throughout these pages we will learn about the myths related to happiness, how seeing success in another way can help us, and how to open our minds to the fact that the real change is in the way we think about what we do, what happens to us and to those around us. Giving concepts such as acquiring mental stability, gaining forgiveness, understanding acceptance, understanding gratitude, finding our purpose, and welcoming the transience of life will bring us much more happiness than we ever would have imagined.

El libro de la felicidad Ramiro A. Calle, 2004

Las Piedras Angulares de la Felicidad James H Woodall, 2025-03-24 Desde muy temprano, todos nos vemos arrastrados a creer en los pilares de la felicidad. Entre ellos, se encuentran la creencia de que ciertos logros en la edad adulta, como el matrimonio y los hijos, el trabajo o la riqueza, nos harán felices, mientras que ciertos fracasos o dificultades (problemas de salud y estar soltero durante un período prolongado, así como tener menos dinero) podrían hacernos infelices. Desafortunadamente, esta noción simplista de la felicidad sigue vigente a pesar de que existen pruebas sustanciales que sugieren lo contrario. Otro concepto erróneo sobre la felicidad es la creencia de que solo encontraré satisfacción una vez que logre ciertas metas, como obtener un ascenso, declarar en voz alta mi orientación sexual, tener hijos o volverme rico. Si bien esas metas pueden hacernos más felices en ciertos casos, su logro no lo garantiza; lo más probable es que definitivamente resulte en felicidad para todos nosotros. Sin embargo, incluso el cumplimiento inicial de las metas puede no traernos tanta felicidad con el tiempo como esperábamos. Por lo tanto, si lograrlas no nos brinda la satisfacción que esperábamos, es probable que sea un indicador de que algo anda mal en nuestras vidas o de que ese sentimiento es exclusivo de nosotros. Uno de los mitos más extendidos y negativos sobre la felicidad es el de no puedo estar satisfecho, que nos lleva a reaccionar

exageradamente cuando nos sucede algo malo. A veces, nuestra respuesta puede llegar a ser demasiado intensa. A veces, sentimos que nuestras vidas nunca serán verdaderamente satisfactorias; o al menos no como solíamos vivirlas antes de alcanzar ciertas metas y alcanzar metas que no eran tan agradables; mi relación está en crisis, he alcanzado mis metas pero todavía me siento insatisfecho, mi trabajo ya no me brinda placer, los resultados de los exámenes son positivos; pero esto nunca debería suceder. ¡Acepten mis más sinceras disculpas si esto le sucede a alguno de ustedes! Lo que me gustaría transmitir con este libro es la realidad de que nuestras acciones, más que las circunstancias, determinarán sus resultados. Si bien ciertos desafíos pueden parecer que alteran nuestras vidas indefinidamente, en última instancia, nuestras respuestas son las que determinan los resultados. Las reacciones iniciales son las que convierten los cambios de los eventos en crisis, no su naturaleza normal y prevista. Nuestras respuestas iniciales nos llevan a seleccionar respuestas dramáticas y potencialmente destructivas.
