**El español coloquial en la conversación** Antonio Briz Gómez,1998

**Fundamentos críticos de sociolingüística** Francisco García Marcos,1999 Sería interesante contrastar cuántas líneas de investigación se han enfrentado con tan reiterada asiduidad y tan dispendioso elenco de opiniones a su delimitación interna y externa como lo ha hecho la sociolingüística. A pesar de contar con unos estimables lustros en su haber, tres (en su versión restringida) y siete (en la amplia), todavía en fechas relativamente recientes, 1990, H.Lopez Morales estimaba oportuno, y hasta recomendable, precisar los márgenes entre los que había de considerarse lícito el quehacer sociolingüístico. Ambas fronteras, la cronológica y la temática, en realidad constituyen otras tantas-y no menos veniales-aristas de los escollos que ha de solventar todo propósito delimitador similar al que ha parecido estar abocada la reflexión sociolingüística. Lo cierto es que durante todos estos años se han ido sucediendo las más diversas tentativas para tratar de fijar de manera definitiva su cronología y, en el fondo, tras cada una de ellas ha latido una manera acusadamente distinta de entenderla y, para no pocos autores, incluso manifestaciones nada equiparables de cómo asumir el compromiso social del científico, del lingüista en este caso.

Jiménez Jiménez,2018-05-20 Este manual introduce al lector a la actividad de la traducción de inglés a español y viceversa, adoptando un punto de vista práctico y siguiendo los estándares profesionales actuales. Introducción a la traducción examina una gran variedad de temas enfocados en resolver los problemas de traducción que se suelen encontrar en los textos, por ejemplo, en relación a los elementos culturales, los aspectos

connotativos, la variación lingüística, la traducción subordinada y la traducción especializada. Para ello, se exploran detenidamente, y con multitud de ejemplos prácticos, las técnicas, estrategias y herramientas disponibles durante la actividad traductora. La página web que acompaña a este manual incluye además información lingüística contrastiva entre el inglés y el español para evitar problemas de transferencia negativa entre ambos idiomas. Introducción a la traducción aumentará la competencia traductora de los lectores de una manera sistemática, coherente y contextualizada, ofreciendo oportunidades de práctica a través de un gran número de actividades y textos para traducir. This manual introduces readers to the activity of Spanish-English/English-Spanish translation while adopting a practical perspective aligned with current professional standards. Introducción a la traducción examines a wide variety of topics that focus on resolving common problems that tend to arise throughout the process of translating different kinds of texts. For example, this book explores translation issues with respect to cultural elements, connotative meaning, linguistic variations, constrained translation and specialized translation. It offers a multitude of practical examples and a thorough consideration of the techniques, strategies and tools available to translators. Among other resources, the companion website includes contrastive linguistic analysis of English and Spanish to help avoid negative transfer issues between both languages. Introducción a la traducción will improve the reader's competence as a translator in a systematic, coherent and contextualized way, providing abundant opportunities to practice translation skills through ample hands-on activities and a wide variety of texts to translate.

**Didáctica de la lengua y la literatura, políticas educativas y trabajo docente** Carolina Cuesta,2020-05-14 Por qué indagar sobre los vínculos entre los enfoques didácticos de la lectura y la escritura, como reconfiguraciones de la enseñanza de la lengua y la literatura, que han asumido las orientaciones de las políticas educativas en la Argentina (también en la región y desde los años noventa). Porque al asumir una perspectiva etnográfica se revela que esos enfoques y esas políticas no se corresponden con las inquietudes e intereses que recurrentemente los actores de la enseñanza expresan en las aulas, mucho menos cuando se los observa desde la diversidad social, cultural y lingüística característica de nuestros territorios. De esta manera, se plantea volver al supuestamente vetusto problema de las metodologías de la enseñanza para desde allí resignificar y resolidarizar saberes que conforman la larga historia de la disciplina escolar con aquellos que les resultan novedosos para superar las vigilancias epistemológicas de los enfoques, junto con sus límites explicativos respecto de las aulas concretas donde se efectúan las enseñanzas y los aprendizajes.

Discurso y sociedad José Luis Blas Arroyo,2006 The fundamental objective of this book is to devote an autonomous space to the reciprocal influence between two realities we live with on a day-to-day basis: language, or the languages through which we communicate, and the society surrounding us. It includes papers presented at the 2nd Conference on Language and Society, organised by the Universitat Jaume I.
