An Introduction to Literature for Students of English as a Foreign Language K. Thomas Baby, 2024-04-19 This textbook is the result of the author's long experience of teaching introductory English literature courses, and the non-availability of a suitable textbook for EFL (English as a foreign language) students. The books currently available in the market are beyond the comprehension level of average EFL students. In order to fill this gap and give a solid foundation to students, the initial chapters of the book deal with important literary terms and a brief history of English literature. In addition, the book provides various types of comprehension questions, focussing on the needs of EFL students. Finally, the book consists of carefully selected materials for the study of fiction, poetry and drama from authors representing different ages of English literature. This compact textbook can be considered as an excellent resource for all EFL students and teachers around the world.

Training the Young Actors of Theatre Ashbury Gregory H. Simpson, 2025-04-14 When Gregory H. Simpson was hired to run the drama program at Ottawa private school Ashbury College, he brought with him a very simple premise: If you taught kids to think, there would be a revolution in education. That premise—plus a few years, more than a few scandalously unfiltered plays, and a whole bunch of wonderful students—would create the internationally-acclaimed Theatre Ashbury. Mr. Simpson demanded critical thought, intense work, and commitment from those kids, and what he got was decades of showstopping, educational, and attention-grabbing theatre. (Not to mention a few stars among his alumni!) Now, Mr. Simpson lays out his methodology: Theatre as Education. By giving his students the artistic freedom to explore difficult

subjects, the rigor and the skills to depict them authentically, and the highest standards to reach with their achievements, he taught his students—and everyone around them—a lot more than how to act.
