Robert McParland analyzes how rock music touches our imaginative lives by looking at themes that appear in classic rock music: freedom and liberation, utopia and dystopia, community, rebellion, the outsider, the quest for transcendence, monstrosity, erotic and spiritual love, imaginative vision, and mystery. *The Rock Music Imagination* explores blues imagination, countercultural dreams of utopia, rock's critiques of society and images of dystopia, rock's inheritance from romanticism, science fiction and mythic imagination in progressive rock, and rock's global reach and potential to provide hope and humanitarian assistance.
