AJ Cronin Bestsellers AJ Cronin, 2020-10-16 Three absorbing classics by the acclaimed Scottish novelist, including a National Book Award winner. This collection includes three novels whose settings range from Wales to China, and which paint a rich portrait of the changes and upheavals of the early decades of the twentieth century: *The Citadel*: Set in Great Britain in the years between the world wars, this National Book Award-winning novel is “[a] fine, honest, and moving a study of a young doctor” (The Atlantic Monthly). *The Stars Look Down*: This thought-provoking novel follows the challenges faced by a Northern England coal mining community and represents “the finest work Cronin has given his public” (Kirkus Reviews). *The Keys of the Kingdom*: A controversial Scottish Catholic priest embarks on a mission in China, where over years of hardship he learns the true meaning of humanity—and of faith—in “a magnificent story of the great adventure of individual goodness” (The New York Times Book Review).

Doctors in Fiction Borys Surawicz, Beverly Jacobson, 2009 Medical practitioners are key actors in many well-known works of fiction and literature, presenting a vital insight into the social, medical, scientific and ethical concerns of their authors and readers. However, medical professionals are often left little time to explore such cultural perceptions of their profession, and by extension themselves, despite the extent to which the views of their patients and society have been - and

still are - shaped by them. *Doctors in Fiction* explores and analyzes representations of medical practitioners in fiction, encompassing classic and contemporary literature, popular fiction, and authors from many nations and traditions. These include among others: Albert Camus A* Anton Chekhov A* Robertson Davies A* Graham Greene A* George Eliot A* Ian McEwan A* F. Scott Fitzgerald A* Jaroslav Hasek A* Henrik Ibsen A* John Irving A* Patrick O'Brien A* Boris Pasternak A* Aleksandr Solzhenitsyn This book will be of interest to those with an interest in the medical humanities, and to students of cultural history and literature. It will also be of particular interest to medical practitioners of all kinds who enjoy literature and wish to understand and reflect upon wider perceptions of their profession.
