

Emma Watson At Un

Sebastian Brünink

Emma Watson: Un Gender Equality Speech Rebecca Sjonger, 2020-08-31 As a famous actor and person of privilege, Emma Watson's 2014 speech as a United Nations Goodwill Ambassador was a call for equality and justice. In her speech, she implores men and boys to join the fight for gender equality—for their own sake and that of the other half of the world's population. Watson shares her own experience discovering feminism at an early age and wanting other young women and men to not shrink from the word or the work required to make a more inclusive world.

Focus On: 100 Most Popular 21st-century English Actresses Wikipedia contributors,

The Harry Potter Generation Emily Lauer, Balaka Basu, 2019-04-10 The generation of readers most heavily impacted by J.K. Rowling's Harry Potter series—those who grew up alongside the boy who lived—have come of age. They are poised to become teachers, parents, critics and writers, and many of their views and choices will be influenced by the literary revolution in which they were immersed. This collection of new essays explores the many different ways in which Harry Potter has shaped this generation's views on everything from politics to identity to pedagogical spaces online. It seeks to determine how the books have affected fans' understanding of their place in the world and their capacity to create it anew.

Celebrity Media Effects Carol M. Madere, 2018-11-01 America is fascinated with celebrities—from chefs to athletes to television, movie, and rock stars, and even to people who are only famous for being famous. This book explores the effect of celebrity on Americans' public and private lives. The contributors examine how celebrities bring about change, whether intentionally or unintentionally, and whether those changes are good or bad for the public that loves and follows them. They also discuss the flattening of celebrity and what the rise of pseudo celebrity portends for a society that accords fame without substantial accomplishment. Topics explored include health, philanthropy, activism, and celebrity attitudes toward feminism and police brutality—all issues that fall under the cultural magnifying glass today. Recommended for scholars of media studies, popular culture, and sociology.

Gender, Race, and Class in Media Bill Yousman, Lori Bindig Yousman, Gail Dines, Jean McMahon Humez, 2020-07-24 *Gender, Race, and Class in Media* provides students a comprehensive and critical introduction to media studies by encouraging them to analyze their own media experiences and interests. The book explores some of the most important forms of today's popular culture—including the Internet, social media, television, films, music, and advertising—in three

distinct but related areas of investigation: the political economy of production, textual analysis, and audience response. Multidisciplinary issues of power related to gender, race, and class are integrated into a wide range of articles examining the economic and cultural implications of mass media as institutions. Reflecting the rapid evolution of the field, the Sixth Edition includes 18 new readings that enhance the richness, sophistication, and diversity that characterizes contemporary media scholarship. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

Public Relations Campaigns Regina M. Luttrell, Luke W. Capizzo, 2021-01-09 With a focus on the tools needed for working in the PR industry, *Public Relations Campaigns: An Integrated Approach* gives students a hands-on introduction to creating successful, integrated PR campaigns. Authors Regina M. Luttrell and Luke W. Capizzo present the ROSTIR model (research/diagnosis, objectives, strategy, tactics, implementation, and reporting/evaluation) and PESO model (paid, earned, shared/social, and owned media) to show students a framework for practitioners to plan effectively and use all of the resources available to them to create winning campaigns. The Second Edition emphasizes the importance of diversity initiatives and teaches students how to integrate a cross-cultural approach to PR strategies.

Who Owns the Problem? Pius Adesanmi, 2020-02-01 How may we conceptualize Africa in the driver's seat of her own destiny in the twenty-first century? How practically may her cultures become the foundation and driving force of her innovation, development, and growth in the age of the global knowledge economy? How may the Africanist disciplines in the humanities, the social sciences, and the natural sciences be revamped to rise up to these challenges through new imaginaries of intersectional reflection? This book assembles lectures given by Pius Adesanmi that address these questions. Adesanmi sought to create an African world of signification in which verbal artistry interpellates performer and audience in a heuristic process of knowledge production. The narrative and delivery of his arguments, the antiphonal call and response, and the aspects of Yoruba oratory and verbal resources all combine with diction and borrowings from Nigerian popular culture to create a distinct African performative mode. This mode becomes a form of resistance, specifically against the pressure to conform to Western ideals of the packaging, standardization, and delivery of knowledge. Together, these short essays preserve the committed and passionate voice of an African writer lost far too soon. Adesanmi urges his readers to commit themselves to Africa's cultural agency.

Emma Watson: Women's Rights Activist Kate Moening, 2020-01-01 Many know her from her role as Hermione from the Harry Potter film series. But Emma Watson has proven she has a lot to fight for in real life as well! She has led the way by becoming a UN ambassador and starting a campaign for gender equality. Through leveled text, a hometown map, a timeline, and more, discover how Emma Watson has become an inspiration for generations to come!

Women and Politics in the Middle East through a Marxist Feminist Lens Reham El Morally, 2019-07-05 Scientific Study

from the year 2019 in the subject Politics - Other International Politics Topics, grade: 4.0, University of Reading, language: English, abstract: The hierarchical social relations inherent to any patriarchal system have resulted in women's social identities becoming dependent on their relationship with men, as a fathers or husbands. Such relationships have encouraged the view that the oppression of women is the cornerstone of such systems and that their liberation is an essential condition for overcoming it. My question for this paper is: What is the relationship between patriarchy and women's marginalization and absence in the political sphere? In this paper I will discuss how women are marginalized and silenced by force rather than by choice. To further elaborate on that it must be clear that women, especially in the Middle East, are constrained by different types of patriarchy. They are restrained from growing and aspiring to change power relations by the legal system, by the social conventions and the unequal power relations between male and female, and lastly by externalities that constructed the polity of the region. In order to further carry out this research paper, I will use a Marxist feminist theoretical framework to analyze the issue of women's marginalization in the Middle East.

The Nineteenth Century and After ,1925

Arquitectos del alma Steve Ayan,2025-05-28 Arquitectos del alma es una fascinante historia cultural que explica el nacimiento de la psicoterapia en la Viena de Freud y cómo esta revolucionó nuestra manera de entender la psique humana. ¿Qué es un ser humano? ¿Dónde comienza la neurosis? ¿Es el deseo sexual la fuente de todos los deseos? ¿Se pueden resolver traumas, miedos y depresiones? ¿Cuál es el sentido de la vida? En este vibrante y colorido recorrido cultural, el psicólogo y periodista Steve Ayan nos lleva de regreso a los albores de la psicoterapia en la Viena del fin de siglo y narra la fascinante historia de visionarios como Freud, Jung o Adler, entre otros, quienes desarrollaron uno de los pilares de la

civilización occidental: la promesa del bienestar personal. Gracias a este nuevo paradigma, la psicología ha acabado siendo una de las ciencias más influyentes del siglo xx y, con el psicoanálisis, desencadenó una nueva corriente intelectual y social: los abismos del «alma» ya eran conocidos antes de esa época, sin embargo, la idea de que se podía curar la psique, mejorar al ser humano y optimizar su potencial supuso toda una revolución. A través de episodios históricos, disputas intelectuales y ejemplos de casos clínicos famosos, Arquitectos del alma nos muestra cómo la psicoterapia no solo ha modelado nuestra comprensión de lo que significa ser humano, sino que continúa fascinándonos con su capacidad para desentrañar los misterios más profundos del alma.
