Disinformation in the Global South Herman Wasserman, Dani Madrid-Morales, 2022-04-19 A timely and incisive exploration of disinformation and its impact in the Global South In *Disinformation in the Global South*, media and communications scholars Herman Wasserman and Dani Madrid-Morales deliver a unique and geographically diverse collection of perspectives on the phenomenon of disinformation as it manifests in the Global South. In many parts of the Global South, coordinated political disinformation campaigns, rumor, and propaganda have long been a part of the social fabric, even before disinformation has become an area of scholarship in the Global North. The way disinformation manifests in this region, and responses to it, can therefore be highly instructive for readers around the world. Through case studies and comparative analyses, the book explores the impact of disinformation in Africa, Latin America, the Arab World and Asia. The chapters in this book discuss the similarities and differences of disinformation in different regions and provide a broad thematic overview of the phenomenon as it manifests across the Global South. After analyzing core concepts, theories and histories from Southern perspectives, contributors explore the experiences of media users and the responses to disinformation by various social actors drawing on examples from a dozen countries. *Disinformation in the Global South* also includes: A thorough introduction to Southern perspectives on national histories, theories of disinformation, and research

methods in disinformation studies Global case studies of cultures of disinformation, including ethnographic insights into how audiences engage with disinformation Comprehensive explorations of responses to online and offline disinformation, including discussions of news literacy and the management of disinformation A valuable resource for scholars of disinformation everywhere, as well as senior undergraduate and graduate students in courses covering transnational or global perspectives to communication studies, Disinformation in the Global South is also an ideal reference for anyone studying or working in media or journalism.

Brand Bollywood Derek Bose,2006-11-14 Convenient coincidences and glycerine tears, star-crossed lovers and happy endings, mindless songs and energetic dances...These elements, and more, have sustained the Bollywood brand of cinema for nearly a century, so much so that it has now found acceptance across continents. This book is a road map for the fast-changing entertainment landscape of India. It succinctly outlines how film entertainment in India is no longer just an artistic or creative enterprise. This is due to the rapid convergence of various media—home video, satellite television, radio, Internet, animation and gaming—which determines the success, or otherwise, of films. The author contends that the most successful film-makers will be those who recognise the consolidated potential of these revenue streams as opportunities to be tapped for maximising results—so much so that it would be impossible to produce a flop! Based on original research and personal interviews and discussions with film-makers, media professionals and market players, this book is also backed by solid data from a variety of surveys, audit studies and annual reports available in the public domain. By sifting through and collating inputs from such sources, the author arrives at concrete conclusions that place the issue of media convergence within the

framework of film development—something that has not been attempted before.
