

# I Am Still Alive

**J Rink**

**I Am Still Alive** Kate Alice Marshall, 2019-07-02 This tense wire of a novel thrums with suspense. . . . [this book] just might be the highlight of your summer."—The New York Times Cheryl Strayed's *Wild* meets *The Revenant* in this heart-pounding story of survival and revenge in the unforgiving wilderness. After: Jess is alone. Her cabin has burned to the ground. She knows if she doesn't act fast, the cold will kill her before she has time to worry about food. But she is still alive—for now. Before: Jess hadn't seen her survivalist, off-the-grid dad in over a decade. But after a car crash killed her mother and left her injured, she was forced to move to his cabin in the remote Canadian wilderness. Just as Jess was beginning to get to know him, a secret from his past paid them a visit, leaving her father dead and Jess stranded. After: With only her father's dog for company, Jess must forage and hunt for food, build shelter, and keep herself warm. Some days it feels like the wild is out to destroy her, but she's stronger than she ever imagined. Jess will survive. She has to. She knows who killed her father...and she wants revenge.

**I Am Still Alive ...** Aman Kapur, 2016

A Teen's Perspective - Collector's Edition Lisha Williams, 2008-08-03 A Teen's Perspective (Special Edition) was previously published by Watermark Press in 2000. Author Lisha Williams found herself writing as young as nine years old. With a crayon in hand, she began writing poems that came from her heart to God's ears. When she came to realize her passion at the age of 18, she published her first book, *A Teen's Perspective*, which is a collection of poems written throughout her childhood. Most of the poems may seem dark and gloomy, but they were written from the author's life-changing experiences that brought her to where she is today. This is a book filled with poems describing some of the trials and tribulations the young author faced, from school violence to racism and so much more. Some of our nation's schools are filled with young people who constantly fear for the worst but hope for the best. With an overwhelming rate worldwide of school shootings and gang violence, this book is nothing more than a teen's poetic perspective of it all.

Death Shelly Kagan, 2012-04-24 Examines the myriad of questions that arise when confronting the meaning of mortality, challenging many widely-held views about death and inviting readers to take a fresh look at the fact that they will die.

**Whispering Dreams** N Swetha, 'Whispering Dreams' is an intriguing anthology, exploring the themes of Fantasy, Adventure and Imagination. Every individual has his/her own way of imagining things according to their perspective towards

life and this book will take you on a stroll towards a world of imagination. If you are an adventurous person or looking for a mystical journey to enjoy with a cup of coffee, this book will be the best choice to go with.

*Small Friends and other stories and poems* Morris, Jane, 2014-04-02 The short stories and poems in this collection were written by students at King George VI School and centre for physically disabled children in Zimbabwe's second city, Bulawayo. HIV and AIDS have had a devastating effect on all the communities of Zimbabwe, and those with disabilities have not been exempt from the effects of the virus, as is reflected in many of the pieces in this collection. The book clearly demonstrates both the talent of the students and their concern about the issues facing their community and wider society. Some of the stories and poems tell the stories of their lives, some come straight from their imagination, and some simply speak of their dreams for a better future.

**Trans Youth Stories** Dr. Lindsay Herriot, Kate Fry, 2021-08-19 The first of its kind, *Trans Youth Stories: An Intergenerational Dialogue after the "Trans Tipping Point"* is a thematically organized collection of narratives, fiction, nonfiction, letters, poetry, graphics/comics, and visual pieces created by 26 Canadian transgender youth between the ages of 10 and 18. Arranged in sections on childhood, families, bodies, everyday life, schooling, mental health, and acceptance, each section concludes with a response written by a Canadian scholar in transgender studies in conversation with the youth. These responses contextualize the youth pieces with recent scholarship from the field and equip readers with concrete actions for research, activism, and professional practice. Offering a unique and truthful depiction of young trans life and a holistic view of what it might be like to be a young trans person today, this groundbreaking volume will serve as an essential sourcebook for both students and teachers of gender and sexuality studies, trans studies, child and youth studies, counselling, and education. FEATURES: - A unique collection centering the voices of trans youth through firsthand perspectives followed by an extended scholarly response - Includes additional resources and follow-up responses by scholars to help readers contextualize writings of trans youth

**Cured by Watching & Talking Under the Guide of a Counselor or by Oneself** YingJie Song, 2024-07-15 Obesity, anxiety, cheating, anger, bipolar disease, schizophrenia etc. could show up as a disease on surface, they mean nothing else except there is something wrong in one's mind. As to what is wrong, it is really hard for ordinary people to know as often the problem is lurking in subconscious mind, which is beyond one's recognition. Human as a species has existed for quite a long and long time, and established various mechanisms to cope with major disasters and conflicts. When one is facing powerful disaster and could not do anything about it, the problem would fade into subconscious mind of the person as it is a survival mechanism for the individual and the species, otherwise, the person involved could not survive the disaster. Unawareness does not mean the problem is gone, and it would not affect the life and work of the individual. When condition is right, the unsolved problem or conflict would show up as various illnesses. At that point psychological counseling comes to play a

significant role as at the moment we still lack of basic understanding of mind and its working mechanism, though medicine has already made quite a progress. Through psychological counseling, the potential problem could be found, the unreleased anger or fear or stress could be released, thus the person could walk on a road of recovery. Traditional psychological counseling based on communication between the client and the counselor, in this book, a new method with a name of Image Arrangement is developed based on Family Constellations of Bert Hellinger, which could act as an X-ray machine of mind to uncover the potential problems in subconscious mind without reliance on group activities or small things as representatives in one's subconscious mind. At the same time, based on their practices the authors develop 21 sets of golden sentences for curing to write and recite in one's heart to solve twenty-one common psychological problems. Of course, there will be a huge difference in the effects under the guide of a counsellor and by oneself with the method. Thus, if possible, one should seek professional help to achieve maximal effect. Through Image Arrangement, one could give back the misaligned responsibility to the original owner and be only to himself, that is a proved way to solve many psychological problems.
