**The "inscrutably Chinese" Church** Nathan Faries,2010-01-01 The first half of the twenty-first century promises to be a time of great change for the Christian church in the People's Republic of China. The situation is complex and fluid, and the information gap between those on the inside and those outside of China is still significant, though shrinking. The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience, as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers. There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider. It is this gap in understanding-between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China-that Faries seeks to close.

The Myth the Lie and the True Facts about Minimum Wage Pastor Edd Starks III,2021-04-28 The Myth, the Lie and the True Facts about Minimum Wage will help all Americans, from the president down, understand how the American dream of home ownership is slipping away for most Americans, why the market crash happened in 2008, why Americans are working full-time yet homeless, and how to fix it with a living minimum wage.

*Sub-versions* Ciaran Ross,2010 From Swift's repulsive shit-flinging Yahoos to Beckett's dying but never quite dead moribunds, Irish literature has long been perceived as being synonymous with subversion and all forms of subversiveness. But what constitutes a subversive text or a subversive writer in twenty-first-century Ireland? The essays in this volume set out to redefine and rethink the subversive potential of modern Irish literature. Crossing three central genres, one common denominator running through these essays whether dealing with canonical writers like Yeats, Beckett and Flann O'Brien, or lesser known contemporary writers like Sebastian Barry or Robert McLiam Wilson, is the continual questioning of Irish identity - Irishness - going from its colonial paradigm and stereotype of the subaltern in MacGill, to its uneasy implications for gender representation in the contemporary novel and the contemporary drama. A subsidiary theme inextricably linked to the identity problematic is that of exile and its radical heritage for all Irish writing irrespective of its different genres. *Sub-Versions* offers a cross-cultural and trans-national response to the expanding interest in Irish and postcolonial studies by bringing together specialists from different national cultures and scholarly contexts - Ireland, Britain, France and Central Europe. The order of the essays is by genre. This study is aimed both at the general literary reader and anyone particularly

interested in Irish Studies.

**Masterplots Two** Tyrone Williams, 2009 Williams (Xavier U.) presents 367 three-to-four page essays, 101 commissioned new for this edition, on significant African American works of literature, from *Afrocentricity: The Theory of Social Change*, a work of cultural criticism by Molefi K. Asante, to *Zami: A New Spelling of My Name*, the biomythography of Audre Lorde. The works covered range from early colonial era writings through works of the beginning of the 21st century. Most of the essays address a single long work, while others review an author's work in a certain genre, such as short fiction, poetry, essays, or speeches. Each entry begins with information on title, subtitle, author's name and birth/death dates, type of work, date of first publication and production. For fiction, information is also presented on type of plot, setting, and principal characters. The essays then describe events or contents of the work and address broad themes and meanings connected to the work. Essays on fiction works include discussion of main character or characters, while nonfiction work includes sections on form and content and analysis. All essays end with discussion of critical context. Also included with the essays are annotated bibliographies on secondary sources. The final volume includes indexes organized by type of work, title, and authors. Examples of works covered, in addition to the two already mentioned, include *Ain't I a Woman* by bell hooks, *The Autobiography of Malcolm X*, *Babel-17* by Samuel R. Delany, *The Black Muslims in America* by C. Eric Lincoln; *The Content of Our Character* by Shelby Steele, *Kindred* by Octavia E. Butler, *Roots* by Alex Haley, *The Signifying Monkey* by Henry Louis Gates, *Up from Slavery* by Booker T. Washington, and *Walkin' the Dog* by Walter Mosley. **Television Series of the 1990s** Vincent Terrace, 2018-06-07 In the 1990s the big three networks were being challenged by upstarts FOX and the WB for viewer loyalty. Alongside must-see stalwarts like *Frasier*, *Friends*, and *Seinfeld*, the new networks introduced pop culture touchstones like *Buffy the Vampire Slayer* and *The X-Files*. Such shows not only made household names of their stars, but also thrived in syndication and some even graduated to the big screen. In that decade, shows such as *ER*, *Everybody Loves Raymond*, and *Northern Exposure* were vying for awards while programs like *Beverly Hills, 90210* and *Home Improvement* drew in millions of viewers each week. Even after these shows departed the airwaves, they live on in syndication and on DVDs, entertaining many generations of viewers. In *Television Series of the 1990s: Essential Facts and Quirky Details*, Vincent Terrace presents readers with a cornucopia of information about sixty programs from the decade. For example, did you know that Ally McBeal's favorite brand of ice cream is Ben and Jerry's? Or that Hank Hill's shoe size is 12? Or that Carrie Bradshaw's favorite cookie is Double-Stuff Oreos? These are just a handful of hundreds of fun and intriguing specifics found inside this volume. Programs from all of the major networks—as well as select syndicated programs and HBO—are represented here. This is not a book of opinions or essays about specific television programs but a treasure trove of facts associated with each show. From Niles Crane's I.Q. score to George Constanza's high

score on Frogger, readers will discover a wealth of fascinating information that, for the most part, cannot be found elsewhere. In some cases, the factual data detailed herein is the only such documentation that currently exists on bygone shows of the era. Television Series of the 1990s is the ideal reference for fans of this decade and anyone looking to stump even the most knowledgeable trivia expert.

The Films of the Nineties Robert A. Nowlan, Gwendolyn Wright Nowlan, 2001 The 1990s saw numerous actors break onto the scene in the movie industry and achieve great fame, while others received only little, if any, recognition. The 1990s also had blockbuster films that were not to be forgotten as well as bombs that were. This filmography, of course, has them all, good and bad. From Abilene to Zooman, over 3,000 feature-length English language films released between January 1, 1990, and December 31, 1999, are presented. Each entry has alternate titles, running time, detailed cast and production credits, a synopsis, often including critical comments, and Academy Award nominees and winners.

**Posthumanism** Pramod K. Nayar, 2014-07-02 This timely book examines the rise of posthumanism as both a material condition and a developing philosophical-ethical project in the age of cloning, gene engineering, organ transplants and implants. Nayar first maps the political and philosophical critiques of traditional humanism, revealing its exclusionary and 'speciesist' politics that position the human as a distinctive and dominant life form. He then contextualizes the posthumanist vision which, drawing upon biomedical, engineering and techno-scientific studies, concludes that human consciousness is shaped by its co-evolution with other life forms, and our human form inescapably influenced by tools and technology. Finally the book explores posthumanism's roots in disability studies, animal studies and bioethics to underscore the constructed nature of 'normalcy' in bodies, and the singularity of species and life itself. As this book powerfully demonstrates, posthumanism marks a radical reassessment of the human as constituted by symbiosis, assimilation, difference and

dependence upon and with other species. Mapping the terrain of these far-reaching debates, Posthumanism will be an invaluable companion to students of cultural studies and modern and contemporary literature.

Encyclopedia of Television Shows, 1925 Through 2007: A-E Vincent Terrace, 2009 This work represents decades of research and television's entire history. While documentation regarding cast and personnel is now often found online, descriptions of the shows from authoritative sources are still not widely available. Terrace fills that gap with this work, which covers more than 9,350 shows and constitutes the most comprehensive documentation of TV series ever published--Provided by publisher.

*The Narrow Path of Freedom and Other Essays* Eugene Davidson, 2002 Eugene Davidson's final book, *The Narrow Path of Freedom and Other Essays*, examines historical instances of man's inhumanity to man, providing poignant insight that we can profit from as we contemplate an ongoing battle against terrorism. A superb essayist, Davidson here displays an extraordinary range. Long a student of international relations, he writes of the Nuremberg trials after World War II and, as the book's title indicates, of the narrow path of freedom that the democracies have had to travel during the last half century. The path allowed little stumbling, lest they would fall into the errors that disgraced the dictatorships. Davidson wears his wisdom lightly, delighting a reader with touches of humor and with wry, startlingly appropriate comparisons. A second set of essays examines the idea of history as it has survived into our present time, including what Davidson describes as the thin coat of higher learning in a commencement address in which he advises young men and women to listen to dissent and make up their own minds. As Davidson says, The war of ideas is far from over, and every coming generation will have to bear its own share of the burden in the endless struggle for the survival of freedom. Last is a group of reminiscent essays. One recounts a friendship with the historian Charles A. Beard, who proposed to the young Davidson that he call him Uncle Charlie. In another Davidson plumbs the personality of a major figure of the Nazi era, Albert Speer. He also discusses the pathetic and perhaps demented Ezra Pound, whose genius as a poet may have been questionable but whose ability to survive was remarkable. *The Narrow Path of Freedom and Other Essays* is a valuable guide for all who try to keep the idea of freedom alive. The pieces in it are nothing less than a triumph--historical, literary, philosophical. By confronting the idea of history--what the past should mean--Davidson gives us a book that will last well into our already turbulent new century.
