Violeta Demonte

Los castellanos del Perú Luis Andrade Ciudad, Sandro Sessarego, 2020-09-08 Este libro reúne contribuciones de destacados investigadores de la lingüística hispánica para ofrecer un panorama integral de los castellanos del Perú, incluidos algunos que han sido tradicionalmente objeto de discriminación, como el castellano andino, el amazónico y el afroperuano. Los capítulos se concentran en diferentes variedades habladas en el Perú desde distintos enfoques teóricos y metodológicos, atendiendo a su formación, su contexto social e histórico y los fenómenos de contacto que las caracterizan. De este modo, aunque el volumen tiene un foco regional muy específico, los problemas que aborda son de interés y relevancia para el estudio de otras variedades del español, para el tratamiento de otros problemas derivados del contacto lingüístico y para la dialectología e historia de los castellanos latinoamericanos en general. Escrito en castellano, este volumen será de interés para estudiantes graduados en lingüística hispánica e investigadores dedicados a la dialectología, la sociolingüística y la lingüística del contacto.

Enciclopedia de Lingüística Hispánica Volume I Javier Gutiérrez-Rexach, 2016-01-29 The Enciclopedia de Linguistica Hispánica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics. Entries are extensively cross-referenced and arranged alphabetically within three main sections: Part 1 covers linguistic disciplines, approaches and methodologies. Part 2 brings together the grammar of Spanish, including subsections on phonology, morphology, syntax and semantics. Part 3 brings together the historical, social and geographical factors in the evolution of Spanish. Drawing on the expertise of a wide range of contributors from across the Spanish-speaking world the Enciclopedia de Linguistica Hispánica is an indispensable reference for undergraduate and postgraduate students of Spanish, and for anyone with an academic or professional interest in the Spanish language/Spanish linguistics.

Análisis gramatical de la lengua española Luis Miranda Podadera, 1923

Las formas no personales del verbo Teresa María Rodríguez Ramalle, 2008 Siguiendo las líneas de los trabajos que integran esta colección, el presente cuaderno pretende analizar de manera clara, sencilla y ejemplificada el comportamiento de las formas no personales del verbo, también llamadas no flexivas: infinitivo, gerundio y participio. El interés por este tema de estudio ha sido recurrente a lo largo de la historia de la gramática del español y, ciertamente, han sido muchos los lingüistas que han ofrecido sus ideas acerca del funcionamiento y características de las tres formas no personales. El

presente librito recoge en parte esta tendencia, nutriéndose de las nuevas investigaciones sobre las características particulares de las formas no personales. El propósito de este cuaderno es ofrecer una visión del funcionamiento de infinitivos, gerundios y participios en español comparando su comportamiento, mostrando sus semejanzas y diferencias, y prestando especial atención a sus funciones sintácticas. Con este fin, cada uso se encuentra sobradamente justificado por la utilización de ejemplos pertinentes, organizados de manera clara y sistemática. Por todo lo dicho, este cuaderno resultará una obra de consulta para profesores y estudiantes interesados en consultar aspectos concretos de la gramática de las formas no personales y, en fin, para cualquier persona con inquietudes lingüísticas y que desee ampliar sus conocimientos.
