The Television Treasury Vincent Terrace,2020-05-21 The first and only of its kind, this book is a straightforward listing of more than 25,000 trivia facts from 2,498 TV series aired between 1947 and 2019. Organized by topic, trivia facts include everything from home addresses of characters, to names of pets and jobs that characters worked. Featured programs include popular shows like The Big Bang Theory and Friends and more obscure programs like A Date with Judy or My Friend Irma. Included is an alphabetical program index that lists trivia facts grouped by series.

5,000 Awesome Facts 3 (About Everything!) National Geographic Kids,2016 A collection of facts about diverse subjects such as food, animals, inventions and more.

Emmy ,2008

Encyclopedia of Television Shows Vincent Terrace,2024-01-30 There were, between January 1, 2017, and December 31, 2022, 1,559 television series broadcast on three platforms: broadcast TV, cable TV, and streaming services. This book, the second supplement to the original Encyclopedia of Television Shows, 1925-2010, presents detailed information on each program, including storylines, casts (character and performer), years of broadcast, trivia facts, and network, cable or streaming information. Along with the traditional network channels and cable services, the newest streaming services like Amazon Prime Video and Disney Plus and pioneering streaming services like Netflix and Hulu are covered. The book includes a section devoted to reality series and foreign series broadcast in the U.S. for the first time from 2017 to 2022, a listing of the series broadcast from 2011 through 2016 (which are contained in the prior supplement), and an index of performers.

Ariana Danny White,2017-10-19 Who is Ariana Grande? This candid book traces the US pop star's story from her childhood in Florida, through her teenage years on Broadway and Nickelodeon, and onto her gleaming pop career which has seen her described as 'the new Mariah Carey'.

Disney Channel's Extraordinary Girls Christina H. Hodel,2024-03-12 Between 2001-2011, Disney Channel produced several sitcoms aimed at tweens that featured female protagonists with extraordinary abilities (e.g., celebrity and super/magical powers). In this book, Christina H. Hodel argues that, while male counterparts in similar programs openly displayed their extraordinariness, the female characters in these programs were often forced into hiding and secrecy, which significantly diminished their agency. She analyzes sitcom episodes, commentary in magazine articles, and web-based

discussions of these series to examine how they portrayed female youths and the impact it had on its adolescent viewers. Combining close readings of dialogue and action with socioeconomic and historical contextual insights, Hodel sheds new light on the attitudes of the creators of these programs (mostly white, middle-aged, Western, heterosexual males) and the long-term impact on women today. Ultimately, her analysis shows, these blockbuster sitcoms reveal that despite Disney's progress toward creating empowered girls, the network was—and still is—locked into tradition. This book is of interest to scholars of Disney studies, cultural studies, television studies, and gender studies.
