The Dreamer Qamrul A. Khanson,2005-10-28 This book titled *The Dreamer* is a successful attempt to study the evolution of dreams, its origin, its impact on human psyche and its detrimental effect on Dreamer's future course of life. The Dreams

have been analysed by Messenger-Prophets of Almighty The-God, by Messengers' companions, scholars and many intellectuals in religious and non-religious communities until the present times. The process of Dream Delineation is very important and it would continue to amaze people who wish to reap the benefits from the correct Dreams. Such individuals would be ahead of many of their compatriots in materialism and spirituality. In this book The Dreamer the envisioned dreams have been categorised in different chapters to understand each and every kind of dreams individually by its nature, domain, background habitat and logic. Though main deliberations are from The Qur'an, Ahadiths, Atharats, conforming Biblical text but other scientific references have been sought to make this book widely beneficial for every section of life style without any prejudice to culture and religion. The inclusion of secular perceptions of Dreaming covers the non-religious desire to gain benefits from the endowed blessings of Almighty The-God. The overall scientific approach to Dreaming does not alter its divine importance but the secret knowledge from the dreams buds out to provide fragrance of life to each and every human born with this beautiful trait. By reading this book, people of different cultures and religions would blossom in the form of colourful foliage covering the scientific visions of Humankind. May Almighty make this book useful to all genuine Dreamers who seek His Almighty's Guidance for their betterment? So help us Almighty The-God (Ameen / A'men).

Safeguarding the World Culture Heritage - Advances and New Perspectives Sayed Hemeda, 2025-05-07 This book

discusses contemporary issues related to safeguarding and rescuing the UNESCO World's Natural and Cultural Heritage in 3D documentation and conservation engineering projects. These critical components in cultural heritage often require detailed management techniques and unique solution methods to address failures and remedial measures. Thirteen chapters present advanced techniques and innovative materials in conservation engineering and heritage science. The Safeguarding the World Culture Heritage community continues to find improved testing techniques for determining the engineering properties of heritage materials, including non-destructive testing methods. This book discusses these aspects using appropriate methods in a simple way. This book discusses many interesting topics in conservation engineering and heritage science like advances in the documentation and characterization of built heritage materials, modern geotechnical and structural assessment methods and tools, geotechnical earthquake engineering, principles and practice in foundation design, slope stability analysis, and modeling in geomechanics, offshore geotechnical engineering, and geotechnical engineering for the preservation of historical buildings and archaeological sites.

Surah Yasin - the Heart of the Qura'n Jamiatul Ulama Talimi Board Kzn, 2015-12 Surah Yasin was revealed in Makkah with eighty-three verses arranged into five sections. Surah Yasin begins with affirming of Muhammad's [PBUH] prophethood by invoking the Qur'an, the book of wisdom and assuring him that he is on the right guidance. Then it proceeds to describe the fate of the inhabitants of a certain settlement; they repudiated the prophets sent to them and invited Allah's wrath on themselves which wiped them off the face of earth. This account of the attitude of the people of the settlement makes a very significant point; the truth which the high, proud and sophisticated people of the city failed to see was recognized by a simple, lowly man from the suburbs. After narrating the story of the settlement the surah once again calls upon people to observe and ponder over the vast and varied phenomena of nature - from the stars and planets to the rich productivity of earth - and decide who else but the supreme being who created and subjected the entire universe to an ordered, integrated system is worthy of worship. The surah also declares that the prophet is not a poet and that what he preaches is the Message of Allah I whose knowledge has no bounds, and not imaginary tales, exaggerated descriptions and false assertions (which are the stock-in-trade of decadent poets). All praise is due to Allah Ta'ala, The Supreme Master of all the worlds. Countless Durood and Salaam be upon our beloved Nabi, Sayyidina Muhammad(PBUH).

Four Walls and a Black Veil Fahmīdah Riyāz, 2004 Four Walls and a Black Veil contains a representative selection of Fahmida Riaz's poetry. Heart of the Quran Ayatullah Dastghaib Shirazi,2014-02-09 A tradition that all commentators have quoted from reliable books, states that everything has a heart and the heart of Quran is (Surah) Yasin.[1]When we consider the totality of the organs of body as one unit, its center is the heart. From this center is directed the administration of the body. So far as it is warm, the body remains alive and when it fails, the body dies.Heart of the Quran is Surah YasinThe comparison of Surah Yasin with the heart, in this narration, conveys the importance of this Surah. Though the entire Quran is a miracle and the Word of God, the special merits found in this blessed chapter particularly, can be better understood by referring to the narrations, which describe the extraordinary excellence and benefits available through regular recitation of this Surah.
