**A Promise of Fire** Amanda Bouchet, 2016-08-02 KINGDOMS WILL RISE AND FALL FOR HER Cat Fisa isn't who she pretends to be. She's perfectly content living disguised as a soothsayer in a traveling circus, avoiding the destiny the Gods—and her dangerous family—have saddled her with. As far as she's concerned, the magic humming within her blood can live and die with her. She won't be a pawn in anyone's game. But then she locks eyes with an ambitious warlord from the magic-deprived south and her illusion of safety is shattered forever. Griffin knows Cat is the Kingmaker—the woman who divines truth through lies—and he wants her to be a powerful weapon for his newly conquered realm. Kidnapping her off the street is simple enough, but keeping her by his side is infuriatingly tough. Cat fights him at every turn, showing a ferocity of spirit that burns hot...and leaves him desperate for more. But can he ever hope to prove to his once-captive that he wants her there by his side as his equal, his companion...and maybe someday, his Queen? Discover exciting bonus material, including maps, illustrations, and an expanded look at the world of Thalyria. Fans of Jennifer Armentrout, Scarlett St. Clair and Sarah J. *The Fire Series* Anita Mills, 2014-09-21 Medieval England, Scotland, and Normandy set the stage for the epic historical romance series from the “amazingly talented author who has few rivals” (RT Book Reviews). These five historical romances from Anita Mills sweep readers back in time, to places like eleventh-century Normandy, where the danger of loving the wrong man can be perilous, and where forbidden love flourishes in the darkened corners of castles. Defiant women and heroic men roam the gorgeous countryside in this multigenerational saga—perfect escapist romance for readers who take their stolen kisses with a hint of danger. “Mills is a sprightly storyteller, providing atmosphere and action aplenty, and cannily complicating her characters’ inner landscapes.” —Publishers Weekly

Nuclear Power or a Promise Lost Edward T. Burns, 2020-05-01 This book captures the status of current electrical energy markets including the principal forces affecting decisions on selecting an energy source. It represents a seminal work that lays out the electrical energy decision tree for selecting an energy source in a world that is on the verge of catastrophic global warming because of the choices that have been made in the name of cheap energy. The impetus for this book includes the dire need to mitigate continued anthropogenic causes of global warming by turning to carbon free energy sources. Nuclear energy represents such a carbon-free energy source and could be a partial solution to the existential threat facing future society---the threat of a warming planet and its consequential, catastrophic effects on future generations. The world is at a crossroads in human interaction with their environment. The effects of radiation and the relationship of nuclear power to nuclear weapons are both discussed in an understandable and compelling manner. Nuclear energy is contrasted with other energy sources including fossil fuels and renewable energy sources regarding the risks and benefits imposed by each. Important personalities and world events that shaped nuclear power's development are recounted. The historical origins of nuclear power are outlined and the continued impetus to include nuclear power as part of the electric grid energy mix is assessed exposing the obstacles and road blocks to the continued use of nuclear power. Specific attention is paid to revealing the causes and lessons learned from the three severe accidents in commercial nuclear plants: TMI-2, Chernobyl, and Fukushima. An extensive discussion of nuclear waste disposal is provided as part of the decision tree for energy selection. The context for the future of nuclear power as a viable energy source is illuminated by the current battle between economic growth and the harm created by burning fossil fuels. The status of the world's climate and projections for the disruptive effects of global warming on future populations, migration, economics, and world strife are debated against the backdrop of

an increasing world population and the drive by developing nations to achieve economic parity with the industrialized nations. Within the context of increased world strife, the quest by nations to obtain nuclear weapons is also discussed. The steps taken by the world to limit nuclear weapons proliferation are examined with emphasis on potential links between nuclear power generation and access to nuclear weapons. The final chapter discusses the moral responsibility of current generations with respect to future generations, specifically, the applicability of intergenerational equity in political and social decision-making regarding the actions that add to global warming and those risk averse actions that can be taken to minimize global warming.

Fire the Bastards! Jack Green,1992 *Fire the Bastards!* is a scorching attack on the book-review media using the critical reception of William Gaddis's 1955 novel *The Recognitions* as a case study. Although this monumental novel is now generally regarded as one of the few indisputable milestones of contemporary American fiction, its original reviews were overwhelmingly negative. Combining meticulous research with savage indignation, Green exposes the inaccuracies, prejudices, and outright incompetence of Gaddis's reviewers to argue that the review media is ill-equipped to deal with masterpieces of innovative fiction, much preferring safe, predictable books that reassure (rather than question) conventional literary expectations. Despite his careful scholarship, Green is not a dispassionate commentator but an impassioned satirist, working in a rogue tradition that looks back to Swift's ferocious pamphlets. Originally published as a three-part series in his own magazine called *newspaper* - which Gilbert Sorrentino has described as one of the authentic minor splendors of New York literary life in the late fifties and early sixties - this is the first time *Fire the Bastards!* has appeared in book form. Gaddis scholar Steven Moore has written an introduction filling in the background to this unique work and comparing the book-reviewing media of today with that of the fifties.
