Safeguarding the Quality of Forensic Assessment in Sentencing Michiel Van der Wolf, 2022-09-30 This edited collection provides an interdisciplinary and cross-national perspective on safeguarding the quality of forensic assessment in sentencing offenders. Taking an in-depth look at seven different Western countries, each chapter provides an overview of the role of assessment in sentencing offenders, as well as a focus on formal ways in which the respective country's legal system and disciplinary associations protect the quality of forensic assessment. Each chapter explores how to assure better decision making in individual cases based on assessments of psycholegal concepts such as mental disorder/insanity, criminal responsibility and dangerousness. Combining the perspectives of lawyers, legal scholars, and clinicians working in the field, this book is essential for those working in and with forensic assessment. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

The Routledge Handbook of Rhetoric and Power Nathan Crick, 2024-10-04 This handbook represents the first comprehensive disciplinary investigation into the relationship between rhetoric and power as it is expressed in different aspects of society. Providing conceptual and empirical foundations for the study of the relationship between different forms of rhetorical expression and diverse structures, practices, habits, and networks of power, The Routledge Handbook of Rhetoric and Power is divided into six parts: Theoretical Foundations Propaganda, Politics, and the State Resistance and Social Movements Culture, Society, and Identity Discourses of Technique and Organization Prospects for the Future The guiding principle of this handbook is that power represents a capacity for coordinated action grounded in specific historical, technological, political, and economic conditions. It suggests that rhetoric is an art that adapts to these conditions and finds ways to transform, create, or undermine these capacities in other people through self-conscious persuasion. Featuring contributions from key scholars, this accessibly written handbook will be an indispensable resource for researchers and students in the fields of rhetoric, writing studies, communication studies, political communication, and social justice.

The Constitution in Jeopardy Russ Feingold, Peter Prindiville, 2022-08-30 A former U.S. senator joins a legal scholar to examine a hushed effort to radically change our Constitution, offering a warning and a way forward. Over the last two decades, a fringe plan to call a convention under the Constitution's amendment mechanism—the nation's first ever—has

inched through statehouses. Delegates, like those in Philadelphia two centuries ago, would exercise nearly unlimited authority to draft changes to our fundamental law, potentially altering anything from voting and free speech rights to regulatory and foreign policy powers. Such a watershed moment would present great danger, and for some, great power. In this important book, Feingold and Prindiville distill extensive legal and historical research and examine the grave risks inherent in this effort. But they also consider the role of constitutional amendment in modern life. Though many focus solely on judicial and electoral avenues for change, such an approach is at odds with a cornerstone ideal of the Founding: that the People make constitutional law, directly. In an era defined by faction and rejection of long-held norms, *The Constitution in Jeopardy* examines the nature of constitutional change and asks urgent questions about what American democracy is, and should be.

Weed Rules Jay Wexler, 2024-08-13 With full legalization seeming inevitable, it's time to shift the conversation—from whether recreational cannabis should be legalized to how. *Weed Rules* argues that it's time for states to abandon their grudging tolerance approach to legal weed and to embrace careful exuberance. In this thorough and witty book, law professor Jay Wexler invites policy makers to responsibly embrace the enormous benefits of cannabis, including the joy and euphoria it brings to those who use it. The grudging tolerance approach has led to restrictions that are too strict in some cases—limiting how and where cannabis can be used, cultivated, marketed, and sold—and far too loose in others, allowing employers and police to discriminate against users. This book shows how focusing on joy and community can lead us to an equitable marijuana policy in which minority communities, most harmed by the war on drugs, play a leading role in the industry. Centering pleasure and fun as legitimate policy goals, *Weed Rules* puts forth specific policies to advocate for a more just, sensible, and joyous post-legalization society.

Supporting Civics Education with Student Activism Pablo A. Muriel, Alan J. Singer, 2020-10-01 This book empowers teachers to support student activists. The authors examine arguments for promoting student activism, explore state and national curriculum standards, suggest activist projects, and report examples of student individual and group activism. By offering suggestions for engaging students as activists across the K-12 curriculum and by including the stories of student activists who became lifetime activists, the book demonstrates how activism can serve to bolster democracy and be a component of rich, experiential learning. Including interviews with student and teacher activists, this volume highlights issues such as racial and immigrant justice, anti-gun violence, and climate change.
