Temples of the Earthbound Gods Christopher Thomas Gaffney,2010-01-01 In Rio de Janeiro, the spiritual home of world football, and Buenos Aires, where a popular soccer club president was recently elected mayor, the game is an integral part of national identity. Using the football stadium as an illuminating cultural lens, *Temples of the Earthbound Gods* examines many aspects of urban culture that play out within these monumental architectural forms, including spirituality, violence, rigid social norms, anarchy, and also expressions of sexuality and gender. Tracing the history of the game in Brazil and Argentina through colonial influences as well as indigenous ball courts in Mayan, Aztec, Zapotec, Mixtec, and Olmec societies, Christopher Gaffney's study spans both ancient and contemporary worlds, linking the development of stadiums to urbanization and the consolidation of nation building in two of Latin America's most intriguing megacities.

Soccer and Racism Rosana Barbosa, 2022-07-12 This book aims to use soccer as a tool to understand key elements of Brazil's history from the overthrow of the Monarchy in 1889 to the 1930 Revolution that brought Getulio Vargas to power—the so called First Republic. More specifically, this book will show that the advent of soccer and the reactions of the elites toward this sport can be understood primarily as a consequence of the desire of the new Republic—crucially influenced by racist attitudes integral to Social Darwinism—to be included within the white civilized world. Thus, racism during the early years of football in that country was influenced by the eurocentric views of the world in racial terms and the Brazilian elites desire to be accepted by the civilized white world.

The Invention of the Beautiful Game Gregg Bocketti, 2019-02-08 “Beautifully researched and engagingly told, this book captures the bitter conflicts and surprising continuities that marked the emergence of a national style in Brazil as it tells the story of the men and women who, despite their many differences, together created ‘the beautiful game.’”—Roger Kittleston, author of *The Country of Football: Soccer and the Making of Modern Brazil* “Compellingly shows how each segment of Brazilian society—players, club owners, and spectators, especially the usually neglected female fans—was touched by the sport that it eventually came to proudly embrace as its own.”—Amy Chazkel, coeditor of *The Rio de Janeiro Reader: History, Culture, Politics* “Highlights the narrative power of soccer, showing how Brazilians—from elite sportsmen and nationalist intellectuals to common men and women—infused the sport with both personal and national importance.”—Joshua Nadel, author of *Futebol!: Why Soccer Matters in Latin America* Although the popular history of Brazilian football narrates a story of progress toward democracy and inclusion, it does not match the actual historical record. Instead, football can be understood as an invention of early twentieth century middle-class and wealthy Brazilians who called themselves “sportsmen” and nationalists, and used the sport as part of their larger campaigns to shape and reshape the nation. In this cross-cutting cultural history, Gregg Bocketti traces the origins of football in Brazil from its elitist, Eurocentric identity as “foot-ball” at the end of the nineteenth century to its subsequent mythologization as the specifically Brazilian “futebol,” o jogo bonito (the beautiful game). Bocketti examines the popular depictions of the sport as having evolved from a white elite pastime to an integral part of Brazil's national identity known for its passion and creativity, and concludes that these mythologized narratives have obscured many of the complexities and the continuities of the history of football and of Brazil. Mining a rich trove of sources, including contemporary sports journalism, archives of Brazilian soccer clubs, and

British ministry records, and looking in detail at soccer's effect on all parts of Brazilian society, Bocketti shows how important the sport is to an understanding of Brazilian nationalism and nation building in the late nineteenth and early twentieth centuries.
