La tecnología en el desarrollo de las competencias del ingeniero en la Industria 4.0. Agustín Cortes Coss, 2024-09-04 La nueva realidad educativa, aunada a la transformación digital, demanda que los ingenieros de la Cuarta Revolución Industrial se encuentren relacionados tecnológicamente con las exigencias que la economía global del conocimiento requiere. El perfil ingenieril requiere competencias tecnológicas, habilidades blandas o interpersonales y competencias transversales que marcarán un hito entre las herramientas demandantes de los contextos que engloba la Cuarta Revolución Industrial. La presente investigación tuvo como objetivo general fundamentar las competencias necesarias que debería tener un estudiante de ingeniería dentro de la Cuarta Revolución Industrial a través de un análisis de la evolución que han sufrido las competencias demandadas a los ingenieros.

Research, Innovation and Extension to the service to society, in the framework of the Sixth Conference on Social Appropriation of Knowledge (SAK). Sánchez Naranjo, Julio César, Guerrero Álvarez, Gloria Edith, 2021-12-02 Annually, the Technological University of Pereira has been carrying out some events in the line of Social Appropriation of Knowledge. This has been done through the research, innovation, and extension Vice Rectory, moreover, these sessions are framed within the institutional objective: "Define and direct the guidelines for the institutional research that strengthen the research groups and the Seedbeds, through the formation of researchers, the development of science, technology, and innovation projects or programs, as well as the generation of networks and strategic partnerships that contribute to the creation and appropriation of knowledge for the society". Therefore, the 6th Social Appropriation of Knowledge event took place under the title of "The research, Innovation, and Extension at the service of society" which was constituted as an academic and institutional opportunity where the results of the research projects from the last 5 years were published. The results of this event revealed, once again, the high academic level in investigation development at the university. There were 11 articles divided into 6 fields: Health, Engineering, Technology, Education, Industrial Technology, and Art, in which the results obtained by the research projects from the investigation groups were shown, promoting a knowledge exchange from their authors whose intellectual formation is diverse. With this publication, as part of a permanent effort to socialize the knowledge, the university promotes the circulation of its professors, students, and general community voices, having in mind that knowledge must be transferred through different channels, strengthening the academy and society in general, according

to the institutional mission that invites us to incentivize a research culture in the university community.

Humanizar la utilización de las TIC en educación Fernández Delgado, Amparo, Gutiérrez Rivas, Patricia, Tabasso, Edoardo (coords.), 2016 El libro pretende debatir en torno al papel que desempeñan las Tecnologías de la Información y Comunicación en los distintos niveles educativos, incidiendo especialmente en su papel humanizador y mediador de aprendizajes significativos. El equipo de investigadores, pertenecientes al grupo de investigación Desarrollo Personal de la Universidad Católica de Murcia, destaca especialmente la importancia de estas herramientas no solo para conseguir aprendizajes reales, sino sobre todo para que su utilización sea una vía o instrumento para perfeccionar las capacidades y habilidades de los estudiantes de cualquier edad, desde la educación Infantil hasta la educación universitaria. Implica, por tanto, distanciarse de su carácter más instrumental para extraer y potenciar su faceta más humana. Intervienen en la obra: Ana María Aguilar López Pilar Conde Colmenero Amparo Fernández-Delgado Tomás Antonio Carlos González López Patricia Gutiérrez Rivas Loida López Mondéjar Lidia Pellicer García Beatriz Peña Acuña María del Mar Pintado Giménez Alejandro Ros Gálvez Alfonso Rosa García Francisco José Sánchez Marín María Simarro Vázquez Jesús Solera Edoardo Tabasso

El intercambio comercial, cultural y tecnológico entre el pueblo Argentino y el pueblo Tunecino Stephanie Heß, 2008-06-12 Inhaltsangabe: Introducción: Argentina, llamada el país europeo de América Latina, cuenta en la actualidad con un enorme patrimonio heredado del mundo árabe. Cercanías que se remontan a la historia; al rol de España en la epopeya fundacional de América, enriquecidas con el aporte inmigratorio mediterráneo y un gran número de argentinos de origen árabe que habitan tierra argentina. Sabiendo que el conocimiento es un factor primordial en el proceso de intercambio, no se puede minimizarse su rol clave en el acercamiento fructífero entre países. Si bien Argentina y Túnez poseen una herencia cultural e histórica próxima, hoy, Túnez no conoce a Argentina, y Argentina no conoce a Túnez. El presente estudio, con el convencimiento que pueda constituirse en un futuro, en un primer escalón para el acercamiento entre ambos países, para la cooperación entre ellos, para un mayor acceso recíproco al conocimiento y para una posible expansión del comercio bilateral, tiene para objeto determinar el intercambio existente entre Argentina y Túnez en las áreas de la cultura, el comercio y la tecnología, con el fin de medir el grado de potencialidad en la relación bilateral. Esta investigación se enmarcará desde una mirada tunecina hacia un desafío de mayor integración argentina en este país perteneciente al mundo árabe. Inhaltsverzeichnis: Índice: A. SIGLAS 1 B.
