*A Casebook of Ethical Challenges in Neuropsychology* Shane S. Bush, 2004-11-23 The American Psychological Association published a revision of the Ethical Principles of Psychologists and Code of Conduct in 2002. This text, a companion to the 2002 text *Ethical Issues in Clinical Neuropsychology* by Bush and Drexler, presents the reader with common ethical challenges in neuropsychology. This text examines the differences between the 1992 and 2002 APA Ethics Codes as they relate to neuropsychological activities. The authors present cases and discuss ethical issues related to neuropsychological practice with a variety of patient populations and in a variety of clinical settings. In addition, ethical issues in neuropsychological research and test development are examined. The text also includes chapters on emerging and particularly challenging aspects of neuropsychological practice, such as the assessment of response validity, and the use of information technology and telecommunications. Through the use of case illustrations, the authors examine ethical issues in neuropsychology and the new Ethics Code, offering a practical approach for understanding and promoting ethical neuropsychological practice.

**Handbook on Student Development** Mark E. Ware, Richard J. Millard, 2013-02-01 Because this book's main objective is to foster and promote student development, it should appeal to those who advise, counsel, and teach undergraduate and graduate students, particularly those in psychology, education, and other social sciences. Along with a plethora of stimulating ideas for practice and research, the book contains the results of research having immediate applications to students' educational and career direction needs. Readers will find more than 90 articles in this book distributed across three

significant challenges to students' development: the academic, occupational, and personal. Further, the material presented has been organized around three distinct approaches to these challenges: advising, career development, and field placement activities. The source for these articles is the official journal, *Teaching of Psychology*, of Division Two of the American Psychological Association.
