Rochester Stories: A Med City History Paul David Scanlon, 2021 Best known for the world-renowned Mayo Clinic, Rochester's rich history holds so much more beyond medical excellence. But why was the world's greatest medical center built virtually in the middle of a cornfield in the first place? What happened to the Native Americans in the area? Were there ever bears in Bear Creek? Why are there so many geese at Silver Lake, and how did the Zumbro River get its name? What do the extinction of the dinosaurs and the passenger pigeon have to do with Rochester? Retired Mayo Clinic doctor and Rochester native Paul Scanlon answers these questions and more in this collection of historic tales from Med City.

The Call of Antarctica Leilani Raashida Henry, 2024-11-01 On this land of ice, where we are thousands of miles of ice and mountains, it's really beautiful. Antarctica is the coldest, windiest, driest, and most remote part of the world. No one owns it. Only peaceful and scientific endeavors are permitted. It is a true wilderness. Delve into the incredible geography, biodiversity, and exploratory history of the world's coldest continent through the diary entries of George W. Gibbs, Jr., the first Black person to set foot on Antarctica. Author Leilani Raashida Henry, Gibbs's daughter, shares the importance of protecting and understanding the Antarctic landscape and ecosystem as climate change advances. The Antarctic Treaty, which protects the continent from environmentally destructive practices such as mining and drilling, will be up for renewal in

2041, and *The Call of Antarctica* prepares readers with the knowledge of why it is necessary to reinstate that treaty and help protect this unique wilderness.
