Russian Grand Strategy in the era of global power competition Andrew Monaghan,2022-04-26 This book offers a nuanced and detailed examination of two of the most important current debates about contemporary Russia's international activity: is Moscow acting strategically or opportunistically, and should this be understood in regional or global terms? The book addresses core themes of Russian activity - military, energy and economic - but it offers an unusual multi-disciplinary analysis to these themes. Monaghan incorporates both regional and thematic specialist expertise to give a fresh perspective to each of these core themes. Underpinned by detailed analyses of the revolution in Russian geospatial capabilities and the establishment of a strategic planning foundation, the book includes chapters on military and maritime strategies, energy security and economic diversification and influence. This serves to highlight the connections between military and economic interests that shape and drive Russian strategy.

The Sufi Path of Knowledge William C. Chittick,1989-06-01 Ibn al-'Arabi is still known as the Great Sheik among the surviving Sufi orders. Born in Muslim Spain, he has become famous in the West as the greatest mystical thinker of Islamic civilization. He was a great philosopher, theologian, and poet. William Chittick takes a major step toward exposing the breadth and depth of Ibn al-'Arabi's vision. The book offers his view of spiritual perfection and explains his theology, ontology, epistemology, hermeneutics, and soteriology. The clear language, unencumbered by methodological jargon, makes it accessible to those familiar with other spiritual traditions, while its scholarly precision will appeal to specialists. Beginning with a survey of Ibn al-'Arabi's major teachings, the book gradually introduces the most important facets of his thought, devoting attention to definitions of his basic terminology. His teachings are illustrated with many translated passages introducing readers to fascinating byways of spiritual life that would not ordinarily be encountered in an account of a thinker's ideas. Ibn al-'Arabi is allowed to describe in detail the visionary world from which his knowledge derives and to express his teachings in his own words. More than 600 passages from his major work, al-Futuh al-Makkiyya, are translated here, practically for the first time. These alone provide twice the text of the Fusus al-hikam. The exhaustive indexes make the work an invaluable reference tool for research in Sufism and Islamic thought in general.
