**Netflix, Dark Fantastic Genres and Intergenerational Viewing** Djoyimi Baker, Jessica Balanzategui, Diana Sandars, 2023-07-04 Focusing on Netflix's child and family-orientated platform exclusive content, this book offers the first exploration of a controversial genre cycle of dark science fiction, horror, and fantasy television under Netflix's Family Watch Together TV tag. Using a ground-breaking mix of methods including audience research, interface, and textual analysis, the book demonstrates how Netflix is producing dark family telefantasy content that is both reshaping child and family-friendly TV genres and challenging earlier broadcast TV models around child-appropriate family viewing. It illuminates how Netflix encourages family audiences to watch together through intergenerational dynamics that work on and offscreen. The chapters in this book explore how this Netflixication of family television developed across landmark examples including Stranger Things, A Series of Unfortunate Events, The Dark Crystal: Age of Resistance, and even Squid Game. The book outlines how Netflix is consolidating a new dark family terrain in the streaming sector, which is unsettling older concepts of family viewing, leading to considerable audience and critical confusion around target audiences and viewer expectations. This book will be of particular interest to upper-level undergraduates, graduates, and scholars in the fields of television studies, screen genre studies, childhood studies, and cultural studies.

Children's Literature and Childhood Discourses Anna Cermakova, Michaela Mahlberg, 2024-04-04 Children's literature shapes what children learn about the world. It reflects social values, norms, and stereotypes. This book offers fresh insights into some of the key issues in fiction for children, from the representation of gender to embodied cognition and the translation of children's literature. Connecting classic children's texts such as Alice in Wonderland with contemporary fiction including Murder Most Unladylike, the book innovatively brings together perspectives from corpus linguistics, stylistics, cognitive linguistics, literary and cultural studies, and human geography. It explores approaches to experiencing fiction, as well as methods for the study of literary texts. Childhood discourses are investigated through the materiality of texts, the spaces that literature takes up in libraries, the cultural history of fiction moulded through performances, as well as reading environments that shape childhood experiences, such as fashion and urban spaces. Children's Literature and Childhood Discourses emphasizes the crucial link between fictional stories and real life.

**A Series of Unfortunate Events #1: The Bad Beginning** Lemony Snicket,2009-03-17 NOW A NETFLIX ORIGINAL SERIES In the tradition of great storytellers, from Dickens to Dahl, comes an exquisitely dark comedy that is both literary and irreverent, hilarious and deftly crafted. Never before has a tale of three likeable and unfortunate children been quite so enchanting, or quite so uproariously unhappy. Are you made fainthearted by death? Does fire unnerve you? Is a villain something that might crop up in future nightmares of yours? Are you thrilled by nefarious plots? Is cold porridge upsetting to you? Vicious threats? Hooks? Uncomfortable clothing? It is likely that your answers will reveal A Series of Unfortunate Events to be ill-suited for your personal use. A librarian, bookseller, or acquaintance should be able to suggest books more appropriate for your fragile temperament. But to the rarest of readers we say, Proceed, but cautiously.

**Charles Dickens and the Victorian Child** Amberyl Malkovich,2013-02-11 This book explores the ideas of children and childhood, and the construct of the 'ideal' Victorian child, that developed rapidly over the Victorian era along with literacy and reading material for the emerging mass reading public. Children's Literature was one of the developing areas for publishers and readers alike, yet this did not stop the reading public from bringing home works not expressly intended for children and reading to their family. Within the idealized middle class family circle, authors such as Charles Dickens were read and appreciated by members of all ages. By examining some of Dickens's works that contain the imperfect child, and placing them alongside works by Kingsley, MacDonald, Stretton, Rossetti, and Nesbit, Malkovich considers the construction, romanticization, and socialization of the Victorian child within work read by and for children during the Victorian Era and early Edwardian period. These authors use elements of religion, death, irony, fairy worlds, gender, and class to illustrate the need for the ideal child and yet the impossibility of such a construct. Malkovich contends that the 'imperfect' child more readily reflects reality, whereas the 'ideal' child reflects an unattainable fantasy and while debates rage over how to define children's literature, such children, though somewhat changed, can still be found in the most popular of literatures read by children contemporarily.
