Nixon's Vietnam War Jeffrey P. Kimball, 1998 The signing of the Paris Agreement in 1973 ended not only America's Vietnam War but also Richard Nixon's best laid plans. After years of secret negotiations, threats of massive bombing and secret diplomacy designed to shatter strained Communist alliances, the president had to settle for a peace that fell far short of his original aims.

Livelihood Pathways of Indigenous People in Vietnam's Central Highlands Huỳnh Anh Chi Thái, 2018-01-31 This study focuses on impacts of the environmental and socio-economic transformation on the indigenous people's livelihoods in Vietnam's Central Highlands recent decades since the country's reunification in 1975. The first empirical section sheds light on multiple external conditions (policy reforms, population trends, and market forces) exposed onto local people. The role of human and social capital is examined again in a specific livelihood of community-based tourism to testify the resilience level of local people when coping with constraints. The study concludes with an outlook on implications of development processed which still places agriculture at the primary position livelihood, and pays attention to human capital and social capital of indigenous groups in these highlands.

Living in a Globalized World Don N. McCaskill,Prasit Līprīchā,Shaoying He,2008 Indigenous peoples in Laos, Thailand, Vietnam, and Yunnan (in China) live in a region of massive change. Policies aimed at minorities or developing upland areas, as well as transformations wrought by migration, highways, hydropower, the Internet and other media, and tourism are all impacting the cultures of the Akha, Lisu, Karen, Dai, Mien, Khmu, and numerous other groups in the Mekong region. This book is the result of an innovative cross-border comparative project jointly conducted by an international team of scholars.

The Chinese Exodus from Vietnam Judith Strauch,1980 This analysis emphasizes Chinese ethnicity as a significant factor motivating exodus from Viet Nam and as an explanation of the deteriorating conditions within Viet Nam. It also explains the reception accorded to refugees by most Southeast Asian countries, as they reach areas where ethnic Chinese populations are already living uneasily with indigenous peoples. The paper presents the colonial origins of Chinese separateness and the reasons for the endemic insecurity and vulnerability of the Overseas Chinese in South East Asia. The climate of ethnic relations throughout the region is sensitive and volatile and indigenous élites everywhere are seeking ways of achieving economic development and ethnic stability (nation-building). The author discusses the possibility of a relationship between the outbreak of ethnic conflict in one part of the region and the potential for heightened tension elsewhere, a 'demonstration effect'. The paper examines trends in Indonesia and Malaysia and suggests that the general climate of racial tolerance in those countries may be deteriorating. This possibility, and its implicit connection with the Vietnamese expulsion of ethnic Chinese, must be acknowledged if it is to be counteracted.

Encyclopaedia of Southeast Asia and Its Tribes Shiv Shanker Tiwary,Rajeev Kumar,2009 Southeast Asia is a region where one can find many similarities between different countries. Southeast Asia has never been in any sense an isolated or self-contained unit. Because of its crossroads situation on the map of Asia it has always been peculiarly exposed to external influences; it has been a meeting-ground of commerce, cultures civilization.

Airpower in Small Wars James S. Corum, Wray R. Johnson, 2003 The use of airpower in wartime calls to mind the massive bombings of World War II, but airplanes have long been instrumental in small wars as well. Ever since its use by the French to put down rebellious Moroccan tribes in 1913, airpower has been employed to fight in limited but often lengthy small conflicts around the globe. This is the first comprehensive history of airpower in small wars—conflicts pitting states against non-state groups such as insurgents, bandits, factions, and terrorists—tracing it from the early years of the twentieth century to the present day. It examines dozens of conflicts with strikingly different scenarios: the Greek Civil War, the Philippine Anti-Huk campaign, French and British colonial wars, the war in South Vietnam before the American escalation, counterinsurgency in southern Africa, Latin American counter guerrilla operations, and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades. For each war, the authors describe the strategies employed on both sides of the conflict, the air forces engaged, and the specific airpower tactics employed. They discuss the ground campaigns and provide the political background necessary to understand the air campaigns, and in each case they judge the utility of airpower in its broadest sense. In their historic sweep, they show how forms of airpower evolved from planes to police helicopters, aircraft of the civilian air reserve, and today's unmanned aircraft. They also disclose how small wars after World War II required new strategies, operational solutions, and tactics. By taking this broad view of small-war airpower, the authors are able to make assessments about the most effective and least effective means of employing airpower. They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small-wars training programs. *Airpower in Small Wars* will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty-first century.

The Churches in Asia Georg Evers, 2005

US Special Forces and Counterinsurgency in Vietnam Christopher K. Ives, 2007 This volume examines US Army Special Forces efforts to mobilize and train indigenous minorities in Vietnam. Christopher K. Ives shows how before the Second Indochina War, the Republic of Vietnam had begun to falter under the burden of an increasingly successful insurgency. The dominant American military culture could not conform to President Kennedy's guidance to wage 'small wars', while President Diem's provincial and military structures provided neither assistance nor security. The Green Berets developed and executed effective counterinsurgency tactics and operations with strategic implications while living, training, and finally fighting with the Montagnard peoples in the Central Highlands. Special Forces soldiers developed and executed what needed to be done to mobilize indigenous minorities, having assessed what needed to be known. Combining Clausewitz, business theory and strategic insight, this book provides an important starting point for thinking about how the US military should be approaching the problems of today's 'small wars'. US Special Forces and Counterinsurgency in Vietnam will be of much interest to students of the Vietnam War, Special Forces operations, military innovation and strategic theory in general.
