

Lexicon Of Musical Invective

CO Houle

Lexicon of Musical Invective Nicolas Slonimsky, 2000-08 An anthology of critical assaults on well-known composers and their works written by the late Nicolas Slonimsky--writer, lexicographer, pianist, composer, conductor, teacher, and in his own words, legendary...musicologist of manifold endeavors [and] failed wunderkind. It also includes his *Invecticon*, an index to the nasty words and phrases found in the book. This is a reprint of the 1953 edition with a new foreword by Peter Schickele who describes the collection as funny and instructive. c. Book News Inc.

The Critical Reception of Beethoven's Compositions by His German Contemporaries, Volume 2 Wayne M. Senner, Robin Wallace, William Rhea Meredith, 1999-01-01 The volumes in *The Critical Reception of Beethoven's Compositions by His German Contemporaries* bring to light contemporary perceptions of Beethoven's music, including matters such as audience, setting, facilities, orchestra, instruments, and performers as well as the relationship of Beethoven's music to theoretical and critical ideas of the eighteenth and nineteenth centuries. These documents, most of which appear in English for the first time, have been compiled from German-language periodicals published between 1783 and 1830. They present a wide spectrum of insights into the perceptions that Beethoven's contemporaries had of his monumental music. This is the second in a projected four-volume series. It begins with Opus 55, the *Eroica*, and ends with Opus 72, *Fidelio*.

Extreme Exoticism W. Anthony Sheppard, 2019-09-16 To what extent can music be employed to shape one culture's understanding of another? In the American imagination, Japan has represented the most alien nation for over 150 years. This perceived difference has inspired fantasies--of both desire and repulsion--through which Japanese culture has profoundly impacted the arts and industry of the U.S. While the influence of Japan on American and European painting, architecture, design, theater, and literature has been celebrated in numerous books and exhibitions, the role of music has been virtually ignored until now. W. Anthony Sheppard's *Extreme Exoticism* offers a detailed documentation and wide-ranging investigation of music's role in shaping American perceptions of the Japanese, the influence of Japanese music on American composers, and the place of Japanese Americans in American musical life. Presenting numerous American encounters with and

representations of Japanese music and Japan, this book reveals how music functions in exotic representation across a variety of genres and media, and how Japanese music has at various times served as a sign of modernist experimentation, a sounding board for defining American music, and a tool for reshaping conceptions of race and gender. From the Tin Pan Alley songs of the Russo-Japanese war period to Weezer's Pinkerton album, music has continued to inscribe Japan as the land of extreme exoticism.

Music, Performance, Meaning Nicholas Cook, 2017-07-05 This selection of sixteen of Nicholas Cook's essays covers the period from 1987 to 2004 and brings out the development of the author's ideas over these years. In particular the two keywords of the title -Meaning and Performance- represent critical directions that expand to the point that, by the end of the book, they become coextensive: music is seen as social action and meaning as created by that action. Within this overall direction, a wide variety of topics is explored, ranging from Beethoven to Schenker, from Chinese qin music to jazz and rock, from perceptual psychology to sketch studies and analysis of record sleeves. A substantial introduction draws out the links (and differences) between the essays, sometimes critiquing them and always setting them into the developing context of the author's work as a whole.

Slonimsky's Book of Musical Anecdotes Nicholas Slonimsky, 2014-03-18 Scathing reviews, whimsical stories, and diverting games fill the pages of this utterly engaging kaleidoscope of skewed tales on the world of Classical music. It dishes out a marvelous feast of tales served up by a master storyteller whose reach extends around the world and to the beginnings of civilization.

Anuario interamericano de investigación musical Gilbert Chase, 1972

Evaluation without Tears Selma Wassermann, 2020-01-15 Teachers evaluate students' work constantly. It is a built-in part of the job of teaching. Yet, what is hardly acknowledged is the subjectivity and unfairness of evaluation. Although grades and marks have long been discounted as having any reliability or validity, they endure as real and exact measures of ability and performance. Not only are they specious, they have little or nothing to do with the important goal of evaluation - that is to provide feedback to learners that enables their subsequent growth. Evaluation Without Tears provides teachers with specific examples of how they might provide evaluative feedback to students that is enabling and affirming, rather than punishing, respectful of the learner and protective of the learner's dignity, recognizing that one person's judgment is not truth. Teaching students to self-assess, an important dimension of growth and maturity, is a significant feature of the book.

Embracing the Tune of Expression: An Emotional Symphony within **Lexicon Of Musical Invective**

In a global consumed by monitors and the ceaseless chatter of immediate transmission, the melodic elegance and psychological symphony produced by the published term often diminish in to the backdrop, eclipsed by the relentless noise and distractions that permeate our lives. However, nestled within the pages of **Lexicon Of Musical Invective** a marvelous fictional treasure overflowing with natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, this charming masterpiece conducts viewers on a mental trip, skillfully unraveling the concealed tunes and profound affect resonating within each carefully crafted phrase. Within the depths with this touching assessment, we shall examine the book is key harmonies, analyze their enthralling writing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
