Comics in Translation Federico Zanettin, 2015-12-22 Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. Comics in Translation attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. Comics in translation examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics to Art Spiegelman's Maus, from Katsuhiro Ōtomo's Akira to Goscinny and Uderzo's Astérix. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi.

Competencias básicas Berta Marco Stiefel, 2008-10-27 BASIC COMPETENCES. Toward a new educational paradigm - Starting from the presentation of the basic competences in the documents emanating from the Organic Law of Education (LOE, 2006), the book takes us through the international organisms that have been in charge of the topic of competences and through the work of those experts that have intervened in the clarification of its choice and contents, to find the genesis of the eight basic competences present in the Law. Once the term is explained in its educational sense, the book is centered on the understanding of each one of the competences and its interrelation, a very important point in trying to understand what type of person this group of competences presents and its acceptance in the society which receives it, with its new challenges. An interesting aspect of the book is the close link between competences and the context and the best way of proceeding so as to make effective the mobilization of knowledge and the transfer of learning, illustrated in the book with numerous suggestions, activities and resources. Finally, the programming of the stages is attended to, including the competences among other curricular elements.

En torno a la Lengua José Dulac, 2023-06-14 Durante tres años un grupo de profesores innovadores y entusiastas de nuestra Lengua Española y de San Millán de la Cogolla hemos trabajado coordinados para desarrollar el proyecto «En torno a la Lengua». Cada uno de nosotros ha elegido un tema sobre el que investigar desde una perspectiva divulgativa, didáctica, STEAM que pudiera servir para aprender todos de todos. En tres ocasiones nos hemos podido reunir en el maravilloso entorno donde nació la Lengua que hoy disfrutamos y hablamos. Satisfechos con nuestro trabajo decidimos realizar esta publicación en la que se recogen los trabajos que veintiún autores han realizado por escrito y que van referidos a temas tan variados como el Santo Millán, la Rioja, los monasterios de Suso y Yuso, la escritura medieval, los códices de San Millán de la Cogolla, la evolución de la lengua, el arca de San Millán, las tablas de San Millán, las boticas y hospitales medievales, la Ciencia y la Ingeniería en los monasterios de San Millán, los hispanismos, Berceo poeta, el canto gregoriano... Todo ello planteado como un estudio divulgativo sin más pretensión que hacer asequible y entendible para todos el gran valor de nuestra Lengua Española y San Millán de la Cogolla.
