**Women's Empowerment in Agrifood Governance (WEAGov) Assessment Framework: Insights from the India Pilot Study** Ragasa, Catherine, Kyle, Jordan, Yasmin, Sabina, Pande, Harshita, Sharma, Aanshi, Basu, Sampurna, Najjar, Dina, 2025-02-21 Women's equal participation and leadership in political and public life can boost a country's long-term economic growth, foster social inclusion, and help countries reach the 2030 Sustainable Development Goals (SDGs). Beyond these important outcomes, women's inclusion in public life is a basic human right: Women deserve a role in making decisions, controlling resources, and shaping policies. Despite the importance of women's voices and their empowerment in policy and decision-making processes, available metrics show that women's policy and political empowerment remains low. Moreover, these metrics are inadequate in systematically tracking women's voices and empowerment across different levels of decision-making. IFPRI developed an assessment framework—Women's Empowerment in Agrifood Governance (WEAGov)—to assess women's voices and empowerment in national policy processes in agrifood systems. This paper presents results from the pilot testing of WEAGov in India from January to March 2024. In this paper, we present how the WEAGov tool works in the Indian context, analyze trends in the data that we collected during the pilot, and provide an overview of the status of women's voices and empowerment in the agrifood policy process as of March 2024. The pilot testing in India provides useful lessons on improving the measurement of these outcomes and offers valuable policy insights on critical entry points for increasing women's voices and empowerment in the national agrifood policy process, design, implementation, and evaluation.

The Black and White Rainbow Carolyn Holmes, 2020-10-13 Nation-building imperatives compel citizens to focus on what makes them similar and what binds them together, forgetting what makes them different. Democratic institution building, on the other hand, requires fostering opposition through conducting multiparty elections and encouraging debate. Leaders of democratic factions, like parties or interest groups, can consolidate their power by emphasizing difference. But when held in tension, these two impulses—toward remembering difference and forgetting it, between focusing on unity and encouraging division—are mutually constitutive of sustainable democracy. Based on ethnographic and interview-based fieldwork conducted in 2012-13, *The Black and White Rainbow: Reconciliation, Opposition, and Nation-Building in Democratic South Africa* explores various themes of nation- and democracy-building, including the emotional and banal content of symbols of the post-apartheid state, the ways that gender and race condition nascent nationalism, the public performance of nationalism and other group-based identities, integration and sharing of space, language diversity, and the role of democratic functioning including party politics and modes of opposition. Each of these thematic chapters aims to explicate a feature of the multifaceted nature of identity-building, and link the South African case to broader literatures on both nationalism and democracy.
