**Susan M. Glisson**

Quotations of Ida B. Wells Ida B. Wells, 2026-01-20 Notable Quotations from Ida B. Wells This pocket-sized hardcover book contains dozens of quotations from American journalist, educator, civil rights leader, women's rights leader and co-founder of the NAACP, Ida B. Wells.

*The New Abolition* Gary J. Dorrien, 2015-01-01 The black social gospel emerged from the trauma of Reconstruction to ask what a new abolition would require in American society. It became an important tradition of religious thought and resistance, helping to create an alternative public sphere of excluded voices and providing the intellectual underpinnings of the civil rights movement. This tradition has been seriously overlooked, despite its immense legacy. In this groundbreaking work, Gary Dorrien describes the early history of the black social gospel from its nineteenth-century founding to its close association in the twentieth century with W. E. B. Du Bois. He offers a new perspective on modern Christianity and the civil rights era by delineating the tradition of social justice theology and activism that led to Martin Luther King Jr.

**The Black Women's Club Movement** Susan Lynn Smith, 1986

**U.C. Davis Law Review** University of California, Davis. School of Law, 2014-04

**The Human Tradition in the Civil Rights Movement** Susan M. Glisson, 2006 The American civil rights movement represents one of the most remarkable social revolutions in all of world history. While no one would discount the significance of the leadership of Martin Luther King and others, we should also recognize that the fight could not have been waged without the countless foot soldiers in the trenches. As an important corrective to the traditional great man studies, these essays emphasize the importance of grassroots actions and individual agency in the effort to bring about national civil renewal. These biographies assert the importance of individuals on the local level working towards civil rights and the influence that this primarily African-American movement had on others including La Raza, the Native American Movement, feminism, and gay rights. Through engaging biographies of such varied individuals as Abraham Galloway, Ida B. Wells, James K. Vardaman, Jose Angel Gutierrez, and Sylvia Rivera, Glisson widens the scope of most Civil Rights studies beyond the 1954-1965 time frame to include its full history since the Civil War. By widening the time frame studied, these essays underscore the difficult, often unrewarded and generational nature of social change.

*Handbook of Black Librarianship* E. J. Josey, Marva DeLoach, 2000-07-12 E. J. Josey and Marva DeLoach have compiled a

treasure trove of information about black librarianship. This volume includes history, statistics, and documentation of contemporary issues related both to African American participation in librarianship and to the organizations that they built to provide information resources for their people. Of interest to all librarians, bibliophiles, bibliographers, and students of American culture, this handbook fills a niche in American cultural history. Like the first edition, published in 1977, this new edition chronicles the history and achievements of black librarians in their chosen profession. Chapters documenting pioneering individuals and events are juxtaposed with historical descriptions of early professional organizations. Other sections provide important information related to diversity, including the language of diversity and salient statistical facts about African American librarians. New or revised chapters treat issues related to information technology and electronic resources, library services to African Americans, and library education. Of special interest is the section on African American resources, which covers archival and fugitive literature, library holdings, literature, oral history programs, and museums, with several chapters on awards. A complete section is devoted to the important issue of health sciences libraries and blacks. Another new section covers libraries, library education, and publishing in Africa. The final section highlights the role of African Americans in selected areas of the knowledge industry.
