In simple language, he shares how to: • achieve golf goals using hypnotic techniques; • create and develop a plan to get the results you want; • identify behaviors and beliefs that are holding you

back; • gain precise control over your body. Throughout the book, Tramontana provides numerous case studies of athletes who have improved their game as a result of hypnosis. Exploring Great Leadership R. Lynn Wilson, 2012-11-15 Just like you don't have to be a CEO to be a great leader, you don't have to be a great leader to achieve personal success. ... I have said that income, wealth, position, and status are not measures of great leadership. They are not measures of personal success either. Personal success is achieved through honoring and respecting those around you (including family, friends, fellow employees, and others), always being ethical at work and in your personal life, channeling your motivation and desires toward specific career and personal goals (which are compatible with your mental being), and being willing to pay the price of achieving those goals through sacrifice and hard work. Those who do that will find their niche for success and achieve it. Another significant point I want to make is the importance of enthusiasm and a positive attitude to achieve that success, especially when things are not going exactly as you envisioned or planned, which will inevitably happen. Most leadership books share ten steps for success, five things to never forget, and other such formulas. Someone who wants to become a great leader must truly understand the psychology and practice of great leadership. Leadership ability is obtained by having the necessary psychological makeup, knowing oneself, love of work, honoring others, personal sacrifice, and having fun in the workplace. Ignoring, minimizing, or mismanaging the human side of management creates suspicion, fear, and failure in the workplace. Take a practical look at leadership from the inside of an organization, and discover how to build positive and effective relationships. Whether you're a great leader striving to be better, someone wanting to be a great leader, or an individual seeking to achieve your personal and professional dreams in life, you can find the inspiration to accomplish your goals through *Exploring Great Leadership*.

Thomas Jefferson: Founding Hypocrite Thomas Jefferson, 2020-06-18 Need a Thomas Jefferson quote to support your position on an issue? Or a quote to argue against that very same position? You're in luck, because there is a Jefferson quote to argue for or against virtually anything. Want a Jefferson quote in favor of democracy? You'll find it in this book. Need a Jefferson quote against democracy? It's in here too. How about the American Revolution? Or Jefferson's opinion on various Founding Fathers, including Washington, Adams, and Hamilton? The Constitution? Military and national defense? Slavery? Free trade? Agriculture, commerce, and manufacturing? Banks? Taxes? There are Jefferson quotes arguing for and against just about every topic you can imagine. And for the first time, Jefferson's hypocrisy is on full display in this book of contradictory quotes.

Applied Wisdom Alexander Ineichen, 2021-11-16 Applying wisdom and avoiding foolishness are two sides of the same coin. Slipping away from either can lead to risky and uncertain situations. Luckily, author Alexander Ineichen has been

collecting witticisms for thirty-five years that have made him successful in his career and life. In *Applied Wisdom*, he collects an anthology of wit and wisdom containing over 700 quotations from sources as wide ranging as Thomas Aquinas and Frank Zappa. He provides entertaining food for thought for businesspeople and the general audience alike, and enables readers to think outside the box to find wisdom. These nuggets, along with his commentary for each, are the valuable words needed for those facing risk and uncertainty. The witticisms provide a full range of being level-headed, truth seeking, brutally heretical, wonderfully insightful, refreshingly politically incorrect, and other intellectual treats and provocations. The advice, blending economics, politics, history, philosophy, psychology, risk management, and much more, provides a winning mix of humor, intellectual heft, and economic survival tips.
