**Annelies Wilder-Smith**

**Law for Architects: What You Need to Know** Robert F. Herrmann, Menaker & Herrmann LLP, 2012-05-21 An essential reference for practitioners, emphasizing how legal concepts affect the process of bringing architectural vision to reality. *Law for Architects: What You Need to Know* guides design professionals through the daunting landscape where design and construction meet the legal system. It provides an introduction—written in clear, reader-friendly language—to issues that arise at every stage in the practice of architecture. For architects starting or building their own practice: Why do I need a written agreement with my clients? Why do I need insurance? How do I organize my firm? For seasoned architects considering retirement: How do I transfer ownership in my company? How can I benefit from the good will I helped to build? For students who want to learn more about the practicalities of starting out: Why is it important to have a license? Isn't it enough to have a degree in architecture? What are my rights as an employee? It also addresses the perennial questions that concern architects: How do I protect myself from being sued? How do I protect my intellectual property rights in my work? and much more. *Law for Architects* identifies the legal issues that lurk in every corner of your design practice and helps you figure out what questions you need to ask.
