Make No Small Plans Elliott Bisnow, Brett Leve, Jeff Rosenthal, Jeremy Schwartz, 2022-04-12 From the founders of the acclaimed Summit event series and community comes the story of their unconventional journey to business success and the hard lessons they learned along the way. “[Make No Small Plans] neatly crystallizes the teachings and takeaways—basic truths—from the past fifteen years of Summiteering.”—Forbes In 2008, with no event production experience and two college degrees between the four of them, Elliott Bisnow, Brett Leve, Jeff Rosenthal, and Jeremy Schwartz became business partners and set out to build a global events company. With passion and tenacity, they began cold calling as many inspiring company founders as they could and tried to convince them to attend their first event. In the beginning, only nineteen people said yes. Since then, they have grown Summit into a global community with events all over the world, hosting luminaries including Jeff Bezos, Richard Branson, Shonda Rhimes, Brené Brown, Kendrick Lamar, and Al Gore. In 2013, the Summit founders—with help from their behind-the-scenes co-founder and partner Ryan Begelman—acquired Powder Mountain, the largest ski resort in the United States, with a dream of building a mountaintop town of the future. In *Make No Small Plans*, they reveal the triumphs, mistakes, and cornerstone lessons from their journey, which began during the Great Recession and continues today. Alongside teachings from some of the most inspiring entrepreneurs of our time, the authors offer takeaways such as: • No idea should go unspoken. • Reputations are earned by the drop and lost by the bucket. • The road to success is always under construction. • Become a favor economy millionaire. Entertaining and empowering, *Make No Small Plans* shows that anyone can think big and—with a thirst for knowledge, a talented team, and a little humility—accomplish the impossible.

Social Science in the Crucible Mark C. Smith, 1994 The 1920s and 30s were key decades for the history of American social science. The success of such quantitative disciplines as economics and psychology during World War I forced social

scientists to reexamine their methods and practices and to consider recasting their field as a more objective science separated from its historical foundation in social reform. The debate that ensued, fiercely conducted in books, articles, correspondence, and even presidential addresses, made its way into every aspect of social science thought of the period and is the subject of this book. Mark C. Smith first provides a historical overview of the controversy over the nature and future of the social sciences in early twentieth-century America and, then through a series of intellectual biographies, offers an intensive study of the work and lives of major figures who participated in this debate. Using an extensive range of materials, from published sources to manuscript collections, Smith examines objectivists--economist Wesley Mitchell and political scientist Charles Merriam--and the more purposive thinkers--historian Charles Beard, sociologist Robert Lynd, and political scientist and neo-Freudian Harold Lasswell. He shows how the debate over objectivity and social purpose was central to their professional and personal lives as well as to an understanding of American social science between the two world wars. These biographies bring to vivid life a contentious moment in American intellectual history and reveal its significance in the shaping of social science in this country.
