Migration and integration: Tackling policy challenges, opportunities and solutions Yuliya Kosyakova,Agnieszka Kanas,2024-04-02

The Changing Governance of the Sciences Richard Whitley,Jochen Gläser,2008-03-20 This book arose from a conversation between Lars Engwall and Richard Whitley during the 2003 European Group for Organization Studies Colloquium in Copenhagen about important topics for future research. We agreed then, and this has been amply confirmed by subsequent events, that the proliferation of research evaluation schemes, especially in Europe, was an important feature of the changing relationships between the state, universities and scientific research more generally, which needed systematic and comparative analysis. With the support of the Bank of Sweden Tercentenary Foundation, this discussion led to workshops in Uppsala and Manchester involving colleagues from Australia, Germany and the Netherlands at which the main framework for such an analysis was developed. This framework then formed the basis for the conference at Bielefeld in 2005 at which earlier versions of most of the papers in this volume were presented and extensively discussed. We are very grateful for the support of the PRIME network of the European Commission and the Max Planck Institute for the History of Science

for this conference, as well as the invaluable efforts of Peter Weingart of the University of Bielefeld. We are also greatly indebted to the members of the Editorial Board who commented on various drafts of these papers as well as to Aant Elzinga, Stefan Kuhlmann, Philippe Laredo, Arie Rip and Nic Vonortas who acted as referees.

Financial Crises and the Limits of Bank Reform Eileen Keller, 2021 This book explains the reforms that have been implemented in France and Germany in response to the global financial crisis. It focuses on international banking reforms and domestic responses to the crisis.

Germany's Uncertain Power H. Maull, 2006-01-26 This comprehensive, in-depth assessment of the German foreign policy record under the Red-Green government of Gerhard Schröder and Joschka Fischer from 1998 to 2005, produced by a team of German and international experts, explores the idea of continuity and the sources, depths and directions of German foreign policy.

A Kaleidoscope of Pieces Alan Cadwallader, 2017-12-30 There has been considerable debate in recent years in the Anglican Church of Australia about issues of sexual diversity. To this end, two collections of essays have been published. The first, *Five Uneasy Pieces*, addressed the texts that have frequently been used to argue against the legitimacy of homosexual expression within Christian life and leadership. The book demonstrated clearly that the texts that have been interpreted to slam gay and lesbian people are in fact misused, with little or no regard either for ancient context or for contemporary hermeneutics. However, as all biblical liberationist projects have demonstrated, it is not enough to invalidate oppressive uses of selected texts. The obligation is to establish Scripture's hospitable inclusion of those who have been subjected to such oppression. This is more than a generalized divine invitation to the world; it requires a retrieval of those texts that actively embrace gays and lesbians. Hence, a second collection followed, *Pieces of Ease and Grace*. This collection broke significant new ground in the way the Bible can contribute to contemporary debates. The collection utilized a range of methodologies and unlocked authentic, significant and original readings that restored the Bible to a pastoral and transformative support for those whose self-identification was not shaped by heterosexual normativity. However, the project has raised significant issues for wider theological analysis, as well as calling for general theological reflection that can address historical, systematic and ecclesial concerns for supportive, inclusive recognition of those who identify as and with gay and lesbian people of faith. A third volume is therefore prepared focusing theological analysis for the benefit of reflection in the Anglican Church and beyond. Given recent developments in Ireland and the potential repercussions in Australian politics, it is clear that the Church needs to harness its thinking and its actions in relation to its place within society.
