*The Philosophy of Charlie Kaufman* David LaRocca,2011-05-27 From the Academy Award-winning *Eternal Sunshine of*

the *Spotless Mind* (2004) and Academy Award-nominated *Adaptation* (2002) to the cult classic *Being John Malkovich* (1999), writer Charlie Kaufman is widely admired for his innovative, philosophically resonant films. Although he only recently made his directorial debut with *Synecdoche, New York* (2008), most fans and critics refer to “Kaufman films” the way they would otherwise discuss works by directors Woody Allen, Martin Scorsese, or the Coen brothers. Not only has Kaufman transformed our sense of what can take place in a film, but he also has made a significant impact on our understanding of the role of the screenwriter. The *Philosophy of Charlie Kaufman*, edited by David LaRocca, is the first collection of essays devoted to a rigorous philosophical exploration of Kaufman’s work by a team of capable and critical scholars from a wide range of disciplines. From political theorists to philosophers, classicists to theologians, professors of literature to filmmakers, the contributing authors delve into the heart of Kaufman’s innovative screenplays, offering not only original philosophical analyses but also extended reflections on the nature of film and film criticism.

**Inter-Art Journey** Nurit Yaari, 2015-04-01 In recent years, inter-medial studies have attracted increasing attention in arts theory. The notion of 'inter-mediality' presupposes that each established art such as theatre, painting, and cinema indicates the existence of a particular medium, which preserves its distinct features in translations from art to art and, especially, in its combinations with others in single works. Nonetheless, this field of research is presupposed already in the traditional studies of ekphrasis', which focus on the verbal accounts of nonverbal works of art; and in Wagner's notion of Gesamtkunstwerk. This renewed interest generated new fields of research, such as (a) the likelihood of the arts reflecting common grounds; (b) the necessity of a shared metalanguage; (b) the possibility of inter-medial translation; and (d) the inter-medial coexistence within a single work of art, without hindering the reading, interpreting and experiencing abilities of receivers. In honor of Eli Rozik, Ph.D., professor emeritus, former head of the Department of Theatre Studies, and Dean of the Faculty of Arts, Tel Aviv University, this collection provides overviews of all these theoretical issues, and tackles the contemporary practical questions that arise from attempts to transgress the boundaries between the established disciplines of arts studies. Considering first the theoretical aspects of inter-art, inter-mediality, and nonverbal literacy, *Exploring the Common Grounds of the Arts* goes on to discuss by means of performance analysis; dialogues between the arts within a single work; and correspondences between visual and auditory stimuli in musical contexts. It concludes with a discussion of practical examples of inter-mediality in religious representations, official processions, and public performances.

**The Sound of One Hand Clapping** Steven Day ,2020-05-20 Jessie and Vanity are just out of high school and they have both become famous overnight. The world is their oyster, but the pearl isn't where it's supposed to be — A mural of Jessie's journey as she navigates through the creative process and into what Ken Kesey called, The Combine. Through six parts her story unfolds: Love, Birth, Fear, Pain, Death, and Peace. A story about Spiritual Enlightenment. Zen, Taoism, Advaita Vedanta, Christian Mysticism

**Charlie Kaufman** Doreen Alexander Child, 2010-07-01 This revealing study looks at the influences and creative impulses that shape one of today's most progressive, thoughtful filmmakers. Charlie Kaufman got his start in television, but it was his first film, the eccentric *Being John Malkovich*, that won notice for his unique storytelling style. With the aid of a plethora of contributions from those with whom the writer has worked, *Charlie Kaufman: Confessions of an Original Mind* presents the intriguing story of that movie and others as it examines one of the most innovative voices in modern film. This exhaustive study of Kaufman's life and work is organized chronologically to cover his early influences as well as his most-recent ventures. Highlights include explorations of Kaufman's collaboration with *Being John Malkovich* director Spike Jonze—who stood him up for their first meeting—and the writer's conflict with George Clooney (about whom Kaufman says, I can tell you that George Clooney is my least favorite person). There are analyses of *Human Nature*, *Adaptation*, and the hauntingly beautiful *Eternal Sunshine of the Spotless Mind*, which led to an Academy Award. The book also studies Kaufman's sound plays for Theatre of the New Ear and his directorial debut, *Synecdoche, New York*.

Quotation and Modern American Poetry Elizabeth Gregory, 1996 Gregory reads the efflorescence of poetic quotation as part of an attempt to redefine the sources of authority in the modernist world, in which traditional hierarchies of all kinds seemed to be disintegrating. For Americans and for women this breakdown offered an opportunity, since they had long occupied a secondary position in the reigning cultural and gender orders. But it was an opportunity with a cost, and not all poets welcomed it.

**Metamorphosis and the Emergence of the Feminine** Paula Smith Allen, 1999 Women writers from both North and South America, including those from different ethnic groups in the United States, employ the motif of insect and seed metamorphosis, which shows a development of the motif in stages as women increasingly become aware of the existence of a feminine self that is not acknowledged in language. The use of the motif by these writers, separated by both distance and influence, is an attempt by women writers to reject the casting of women's experience in the archetypal images of

Persephone and Penelope, as was traditionally assigned to the feminine by Western civilization.

**Spectres of 1919** Barbara Foley, 2008-06-18 *Spectres of 1919* analyzes how the highly politicized New Negro movement gave way to the culturalism of the Harlem Renaissance, as African American political and literary movements attempted to navigate between U.S. (or bad) nationalism and self-determinationist (or good) nationalism. With the New Negro movement and the Harlem Renaissance, the 1920s were a landmark decade in African American political and cultural history, characterized by an upsurge in racial awareness, artistic creativity, and anticapitalist radicalism. In *Spectres of 1919* Barbara Foley examines the turbulent year 1919, viewing it as the political crucible in which the radicalism of the 1920s was forged. World War I and the Russian Revolution profoundly reshaped the American social landscape, with progressive reforms first halted and then reversed in the name of anti-Bolshevism. Dissent was stifled as labor activists and minority groups came under intense attack, culminating in the racist and antiradical violence of the Red Summer of 1919. Foley shows that African Americans had a significant relationship with the organized Left and that the New Negro movement's radical politics of race was also the politics of class

**Jean Genet and the Semiotics of Performance** Laura Oswald, 1989 When Jean Genet, the enfant terrible of the French theater, died on April 15, 1986, he left a rich and controversial literary legacy. Genet, a homosexual and ex-convict, wrote about events and in a language that could ruffle the complacency of the most sophisticated reader. His work can be seen as a struggle of the social outcast to be heard from beyond the borders of the dominant, heterosexual culture. This challenging book tracks the effects of this struggle in Genet's novels, plays, film, and political essays by means of a general semiotics of performance. By staging a dialogue between Genet and writers such as Derrida, Bakhtin, Metz, Ricoeur, and Benveniste, Laura Oswald pursues the question of performance in the form of a debate rather than that of a closed theoretical system. Her approach puts into play relations between semiotics and philosophy and provides a means of understanding the relationship between Genet's poetics and his radical politics. By focusing on the role of the double in Genet's literary imagination and by reading Genet with his others in the realm of theory, Oswald comes to grips with the overriding concerns of a man whose life in literature was never very far from his life as prisoner, as outcast, as self-proclaimed exile
