The Art of Matching Charts Gayatri Devi Vasudev, 2002-01-01 Matching of charts for marriage is a very important area of astrology. Matching becomes indispensable if we realise that there are more factors than meet the eye that go to make a marriage not only happy but also lasting. This volume on the important subject of horoscope matching is meant to give a correct idea of the complex process involved in it. It is a complete and comprehensive guide to the intricate art of matching charts. Nowhere in the world except, perhaps, in India have marriages survived lifelong for generations. This is solely because marriages are made on astrological factors. For the first time ever, this book tells you what actually constitutes matching of charts and how to go about it. It shows you how to overcome the situation when charts show marriage breakdown due to: premature death, severe incompatibility, mental and psychological aberrations, loss of spouse, infidelity. It contains practical examples from the author's case studies on: good matching, poor matching, dosharidden matching, dosha-free matching. This book is a compilation of author's editorials that have appeared earlier in The Astrological Magazine. The illustrations and the questions and answers are additional and aimed at clearing some common doubts usually encountered while matching charts will help in removing many misconceptions on the subject amongst the laymen and in educating the students on the complex art of matching.

*The Art of Reception* Jacobus Bracker,Ann-Kathrin Hubrich,2021-03-05 This book deals with processes of reception in visual arts. Images (in the broadest sense) from different cultures and times are examined. The volume focuses on two key interpretations of reception. On the one hand, reception is understood as a concept of repetition and revision spanning different cultures and time periods. On the other hand, reception is also seen as the process of perceiving images. Both ways of understanding can be described by the metaphor of migration of images: in the first case, images migrate from one medium to another; in the second case, they migrate from the artefact into the human body. The contributions to this volume cover a variety of approaches coming from different disciplines such as Ancient Oriental philology, English and American studies, classical studies, classical archaeology, communication studies, cultural studies, art history, aesthetics, literature, media studies, philosophy, journalism, Romance studies, sociology, Near Eastern archaeology, prehistory, and classical studies.
