Ties in to the sensational summer movie.

The Art of Brian Coffey Dónal Moriarty, 2000 This study of the Irish modernist poet Brian Coffey (1905-1995), whose work has always been regarded as difficult, explains how the poems release their meaning and guides the reader to understanding his early poems and the late long poems.

A Matter of Faith Robert Sullivan, 1996-07-30 This is the most extensive account of Moore's fiction to date that considers his many works from the early stories to the recent novel, *No Other Life*. Moore, who was born in Ireland but is a Canadian citizen and resides predominantly in the United States, has earned an international reputation as an important novelist. This book sets out to demonstrate a discernible pattern of concerns that cut across Moore's fictive output over the last 40 years. It argues that the concerns of love and faith (and the interplay between them) form the backbone of Moore's oeuvre. Sullivan draws from interviews with Moore and presents a study that convincingly demonstrates how Moore's fictions, from first to last, take their place in a larger thematic and formal masternarrative.

Alice Notley, Wendy Mulford, Brian Coffey Alice Notley, Wendy Mulford, Brian Coffey, 1997 In *Mysteries of Small Houses*, extracted here, Alice Notley explores 'histories' of a southwestern childhood, early poetic awakenings in Iowa and New York's Lower East Side, the Vietnam War, bereavement, and a transference of the poetic 'self' to Paris. Disobedience is also extracted in this anthology. Wendy Mulford's new work here is the first since her collection *The Bay of Naples*. And Brian Coffey (1905-95) excavated eight French Pleiade poets -- Mallarme, Rimbaud, Nerval, Jarry, Apollinaire, Reverdy, Eluard, and Verlaine -- as 'givens' rather than translations.

Science Fiction Film Directors, 1895-1998 Dennis Fischer, 2011-12-14 This enormous and exhaustive reference book has entries on every major and minor director of science fiction films from the inception of cinema (circa 1895) through 1998. For each director there is a complete filmography including television work, a career summary, a critical assessment, and behind-the-scenes production information. Seventy-nine directors are covered in especially lengthy entries and a short

history of the science fiction film genre is also included.

Forced Confrontation Christopher E. Mauriello, 2017-08-04 During the final weeks of World War II, the American army discovered multiple atrocity sites and mass graves containing the dead bodies of Jews, slave laborers, POWs and other victims of Nazi genocide and mass murder. Instead of simply reburying these victims, American Military Government carried out a series of highly ritualized “forced confrontations” towards German civilians centered on the dead bodies themselves. The Americans forced nearby German townspeople to witness the atrocity site, disinter the bodies, place them in coffins, parade these bodies through the town and lay them to rest in town cemeteries. At the conclusion of the ceremony in the cemetery in the presence of dead bodies, the Americans accused the assembled German civilians and Germany as whole of collective guilt for the crimes of the Nazi regime. This landmark study places American forced confrontations into the emerging field of dead body politics or necropolitics. Drawing on the theoretical work of Katherine Verdery and others, the book argues that forced confrontation represented a politicization of dead bodies aimed at the ideological goals of accusing Germans and Germany of collective guilt for the war, Nazism and Nazi genocide. These were not top-down Allied policy decisions. Instead, they were initiated and carried out at the field command level and by ordinary U.S. field officers and soldiers appalled and angered by the level of violence and killing they discovered in small German towns in April and May 1945. This study of the experience of war and forced confrontations around dead bodies compels readers to rethink the nature of the American soldier fighting in Germany in 1945 and the evolution, practice and purpose of American political and ideological ideas of German collective guilt.

The Cinema of James Cameron James Clarke, 2014-09-16 This timely volume explores the massively popular cinema of writer-director James Cameron. It couches Cameron's films within the evolving generic traditions of science fiction, melodrama, and the cinema of spectacle. The book also considers Cameron's engagement with the aesthetic of visual effects and the 'now' technology of performance-capture which is arguably moving a certain kind of event-movie cinema from photography to something more akin to painting. This book is explicit in presenting Cameron as an authentic auteur, and each chapter is dedicated to a single film in his body of work, from *The Terminator* to *Avatar*. Space is also given to discussion of *Strange Days* as well as his short films and documentary works.

A Critical Companion to James Cameron Adam Barkman, Antonio Sanna, 2018-10-26 This book offers a comprehensive, academic and detailed study of the works of James Cameron, whose films include successful productions such as the first two *Terminator* films (1984-91), *Aliens* (1986), *Titanic* (1997), and *Avatar* (2009), but also lesser known films such as *Piranha 2: The Spawning* (1981), *The Abyss* (1989), and *True Lies* (1994), and a series of documentaries on the depths of the ocean or on the tomb of Christ. Cameron's major productions have an immense and enduring popularity throughout the globe and

have attracted both public and critical attention. This volume investigates several distinct areas of Cameron's works and addresses the different approaches and topics invited by the multidimensionality of the subject itself: the philosophical, the artistic, the socio-cultural and the personal. The methodologies adopted by the contributors differ significantly from each other, thus offering the reader a variegated and compelling picture of Cameron's oeuvre. Contrary to the numerous volumes published in the past on the subject, each chapter offers specific case studies that have been previously ignored, or only partially mentioned, by other scholars.
