**Trials of the Innermost** Jonathan Fuller, Kristina Kelly, 2023-05-26 A cataclysm in Etherea's past stopped its rotation, leaving three distinct realms: one of light, one of dark, and one of twilight. Years of war followed until the establishment of the Trials of the Innermost. A new set of six Truthseekers is chosen for this quest of learning and cooperation, but the fragile peace created by the Trials is crumbling even as they begin their first task. The group consists of each realm's best and brightest, and their talents range from magic channeled through music to explosive crystals. They will need all their unique abilities to survive the Trials, which take them through scorched wastes, a wall of storms, and the shadowed Fellwood. Along their journey, a shared lost past is rediscovered, forcing the Truthseekers to question all they believed. As they grapple with their new reality, a deadly secret is unveiled. A fragment of an alien force called the Penumbra has possessed one of their own, granting him preternatural abilities. One realm seeks to control the entity, but the Penumbra has other plans. If it succeeds in reuniting its broken pieces, it will gain the power to consume Etherea's abundant life force. The Truthseekers must overcome their differences and work together before they lose their friend-and their world-to the Penumbra's hunger.

**Design and Analysis of Cross-Over Trials, Third Edition** Byron Jones, Michael G. Kenward, 2014-10-08 Design and Analysis of Cross-Over Trials is concerned with a specific kind of comparative trial known as the cross-over trial, in which subjects receive different sequences of treatments. Such trials are widely used in clinical and medical research, and in other diverse areas such as veterinary science, psychology, sports science, and agriculture. The first edition of this book was the first to be wholly devoted to the subject. The second edition was revised to mirror growth and development in areas where the design remained in widespread use and new areas where it had grown in importance. This new Third Edition: Contains seven new chapters written in the form of short case studies that address re-estimating sample size when testing for average bioequivalence, fitting a nonlinear dose response function, estimating a dose to take forward from phase two to phase three, establishing proof of concept, and recalculating the sample size using conditional power Employs the R package Crossover, specially created to accompany the book and provide a graphical user interface for locating designs in a large catalog and for searching for new designs Includes updates regarding the use of period baselines and the analysis of data from very small trials Reflects the availability of new procedures in SAS, particularly proc glimmix Presents the SAS procedure proc mcmc as an alternative to WinBUGS for Bayesian analysis Complete with real data and downloadable SAS code, Design and Analysis

of Cross-Over Trials, Third Edition provides a practical understanding of the latest methods along with the necessary tools for implementation.

Pregnancy and Childbirth G. Justus Hofmeyr, James P. Neilson, Zarko Alfirevic, Caroline A. Crowther, Lelia Duley, Metin Gulmezoglu, Gillian M. L. Gyte, Ellen D. Hodnett, 2011-08-10 *Pregnancy and Childbirth* presents the best evidence for the care of pregnant women to doctors, midwives, students and parents. *Challenging Common Core Language Arts Lessons* Magdalena Fitzsimmons, 2021-09-03 This book, from the Center for Gifted Education at William & Mary, provides gifted and advanced learners challenging activities to master and engage with the Common Core State Standards for English Language Arts through four mini units. Each mini unit is packed with activities that enrich and extend grade-level ELA content for grade 5. Included texts have messages and characters that are developmentally suitable for students. Through higher order reasoning questions, resulting discussions, and student-created products associated with these texts, gifted and advanced students' needs are met while still maintaining messages and characters to which students can relate. Students will be exposed to themes such as the hero's journey, success from failure, journey as a symbol for change, and conflict. Each theme was chosen with advanced fifth-grade students in mind and their emerging need to learn more about themselves, their world, and how to work through adversity to accomplish their goals. Grade 5

The Hero and Hero-Making Across Genres Amar Singh, Shipra Tholia, Pravin K Patel, 2021-09-30 This book critically examines how a Hero is made, sustained, and even deformed, in contemporary cultures. It brings together diverse ideas from philosophy, mythology, religion, literature, cinema, and social media to explore how heroes are constructed across genres, mediums, and traditions. The essays in this volume present fresh perspectives for readers to conceptualize the myriad possibilities the term 'Hero' brings with itself. They examine the making and unmaking of the heroes across literary, visual and social cultures—in religious spaces and in classical texts; in folk tales and fairy tales; in literature, as seen in Heinrich Böll's *Und Sagte Kein Einziges Wort*, Thomas Brüssig's *Heroes like Us*, and in movies, like Christopher Nolan's *Interstellar*, Michel Gondry's *Eternal Sunshine of the Spotless Mind* and in the short film like Dean Potter's *When Dogs Fly*. The volume also features nuanced takes on intersectional feminist representations in hero movies; masculinity in sports biopics; taking

everyday heroes from the real to the reel, among others key themes. A stimulating work that explores the mechanisms that 'manufacture' heroes, this book will be useful for scholars and researchers of English literature, postcolonial studies, cultural studies, film studies, media studies, literary and critical theory, arts and aesthetics, political sociology and political philosophy.

*Show Trials* George H. Hodos,1987-11-17 Pp. 83-91 discuss the Slansky trial (1952) and its antisemitic aspects, accompanied by the author's personal notes. Rudolf Slansky (1901-1952), a Jew and secretary-general of the Czechoslovak Communist Party, and fourteen leading party members (eleven of whom were Jews) were prosecuted for conspiring against the state. They were seen as Zionist activists and agents of imperialist Israel. The Jewish descent of the defendants was constantly stressed. Slansky and ten others were hanged in December 1952; the other three were sentenced to life imprisonment. The trial formed a direct link with the Doctors' Plot in the Soviet Union. Hodos himself, a Hungarian Jew, was tried in Hungary in 1954 and sentenced to eight years in prison. Includes information on similar trials in Poland, Romania, East Germany, and Bulgaria.

**Ageing Women in Literature and Visual Culture** Cathy McGlynn,Margaret O'Neill,Michaela Schrage-Früh,2017-11-23 This timely collection engages with representations of women and ageing in literature and visual culture. Acknowledging that cultural conceptions of ageing are constructed and challenged across a variety of media and genres, the editors bring together experts in literature and visual culture to foster a dialogue across disciplines. Exploring the process of ageing in its cultural reflections, refractions and reimaginings, the contributors to *Ageing Women in Literature and Visual Culture* analyse how artists, writers, directors and performers challenge, and in some cases reaffirm, cultural constructions of ageing women, as well as give voice to ageing women's subjectivities. The book concludes with an afterword by Germaine Greer which suggests possible avenues for future research.
