

S For Young Men

Mrs. W. K. Clifford

Young Men's Online Lives Amanda Keddie, Michael Flood, 2025-09-26 This Palgrave Pivot offers insight into the factors that influence, motivate and inform young men's online experiences. In Australia and globally recent media and public discourse has expressed strong concerns about the gender-based harms arising from young men's online behaviours - these concerns have prompted renewed scrutiny on boys and masculinity and produced a sense of urgency around addressing these online harms. They have provided a strong warrant for research that seeks to better understand how young men are navigating their online worlds. This book presents findings from a qualitative study of 117 young men in Australia. In foregrounding a diversity of young men's voices, the book responds to calls for more nuance and care in how we debate the gendered impact of social media on young men's lives. As such we highlight the tensions and complexities in how young men navigate negative and positive online experiences including their critical engagement with harmful content. Against this backdrop, the book presents a case for fostering young men's critical digital dispositions towards more gender just engagements online. It provides a conceptual framework and series of activities for fostering these dispositions. The book will be of interest to students and researchers in critical masculinity studies, sociology, psychology, public health, and media and internet studies, as well as practitioners who work with young men.

The Harms of Crime Media Denise L. Bissler, Joan L. Connors, 2014-01-10 A scan of today's television programming reveals numerous media stories, factual and fictional, featuring some aspect of crime. These depictions can stray far from reality, with the effect of creating and reinforcing distorted impressions. This collection offers a sociological analysis of race, class, and gender stereotypes within crime media. Essays discuss particular examples of inequalities and stereotypes, consider the implications of such portrayals, and demonstrate how they influence the public's expectations and beliefs about real-world crime.

Care of Adults with Chronic Childhood Conditions Alice A Kuo, Mariecel Pilapil, David E. DeLaet, Cynthia Peacock, Niraj Sharma, 2024-07-18 This book addresses the unique healthcare needs of adults with chronic childhood illnesses. It presents a model of primary and secondary prevention for emerging adulthood: primary prevention, in which all young adults are screened for high-risk behaviors and health needs, and secondary prevention, in which young adults with chronic childhood conditions are optimized through coordinated care, connections to community resources and social/family support. Now in its revised and expanded second edition, this book is organized in seven parts. Part I provides a detailed overview of the health care transition from pediatrics to adult medicine from both a policy and practice perspective. New topics in this section include telemedicine as a tool to optimize transition care and systems of care/models of care that include practical steps on how to get transition/transfer done or care for these patients in the appropriate setting. In Part II, the concept of emerging adulthood as a developmental period is explored and strategies for providing improved comprehensive care for this age group are discussed. A section on addressing health maintenance has been added to this edition. Part III reviews specific chronic childhood conditions, such as attention-deficit/hyperactivity disorder, autism, cystic fibrosis, and diabetes mellitus, and offers clinical cases and summary reports that can be used as a quick guides to each condition. Several new conditions have been added to this section, including metabolic issues/conditions, eating disorders, transgender medicine and childhood endocrine conditions. Section IV is a completely new section that focuses on hospital medicine. Chapters within this section include pre-op clearance, maintaining safety, neurodiversity considerations, ER issues and triaging, emergencies, contact with PCP, adult issues not addressed, pediatric issues often overlooked, inpatient transition policies, procedures, Med-Peds/Transition, palliative care/hospice and unique inpatient cases. In Part V, additional clinical considerations that are not necessarily condition-specific but are highly relevant to the care of young adults with chronic childhood conditions are examined. Part VI describes the socio-legal issues involved in caring for this population. Finally, part VII is another completely new section that focuses on public health and population considerations. Chapters in this section include telemedicine, disaster preparedness, quality improvement, health care services, mental health/psychiatry, neurodiversity and addressing equity and racism. Written by experts in the field, *Care of Adults with Chronic Childhood Conditions, 2e* provides primary care providers with a new framework for the care of young adults and identifies opportunities to influence patient health outcomes over a life trajectory.
