His name is also listed in Marquis Who's Who. With this background, Dr. Hwang studied BaZi for years with the same scientific discipline as he has done in the academic field of engineering. With a logical and scientific approach, he was able to decipher the ancient art of destiny readings, dusting off the misconceptions and superstitions that have been misleading practitioners and the general public alike for generations, and restoring BaZi to its original beauty. Dr. Hwang further strengthened his theory by verifying it with thousands of real-life cases, many of which he has been tracking for years. This book summarizes the best of his findings as well as the most representative cases he has gathered so far. Unlike other books about fortune telling, which almost always resort to divine power or myths that cannot be explained with logic, Dr. Hwang illustrates everything about the art of BaZi in a logical and systematic way, making everything easy to understand. Readers shall be able to quickly grasp the concepts and theory behind BaZi, and apply it in their day-to-day lives. In this book, Dr. Hwang summarizes the principles of BaZi in a systematic way. In the modern era, where uncertainty has become the norm, a tool that helps people better understand and guide themselves through different situations is more valuable than ever. The art of BaZi, in the hands of those who truly understand it, is like a compass. It not only helps reveal one's personalities, strengths, and weaknesses, but it also guides one through life's

vicissitudes. Mastering BaZi helps us to better know who we are, manage our lives, and create our own destinies. *****
